Dear Hydrographer,

1. The joint IOC-IHO GEBCO Project (General Bathymetric Charts of the Ocean) is led by a Guiding Committee (GGC) which includes five members appointed by IHO and five members appointed by IOC. The current membership of GGC, as reported in references A and B, is indicated in Annex A.

2. The IHB has been advised that both Ingénieur général Etienne Cailliau (France) and Dr Kunio Yashima (Japan) have decided to retire from the GGC after many years of valuable service as IHO representatives.

3. Member States are therefore requested to consider nominating suitable experts to fill the resulting vacancies, by completing the application form in **Annex B** and returning it to the IHB by **15 March 2013**. Please note that the selected expert is expected to be supported and funded by his/her organization and to attend the next GGC meeting in Kuala Lumpur, Malaysia, in October 2013.

4. Criteria for the selection of GGC Members include:

- Profound knowledge in bathymetry, especially in the state of the art of ocean surveying and mapping;
- Experience in undersea topographic terrain analysis;
- Familiarity in the field of international marine history;
- Basic awareness in the marine Earth science disciplines.

An appropriate CV outlining the credentials and experience of the nominee should be provided in support of any proposed candidature.

5. The Directing Committee will examine the nominations and either select the new GGC members, in liaison with the GGC Chairman, Dr. Robin Falconer (New Zealand) or, should there be more than 2 nominations, put forward the candidates for a vote by Member States.

6. The Directing Committee takes this opportunity to thank Ingénieur général Etienne Cailliau and Dr Kunio Yashima, as well as their respective sponsoring HOs, for their valuable contributions to GGC activities.

On behalf of the Directing Committee

Yours sincerely,
