

ASSESSMENT

Identification	Project number
Project name:	Workshop on Technical Aspects of Maritime Boundaries, Baselines and the Extended Continental Shelf

	Performance indicator	Mark	Comments
-	Arrangements		
	Organization of the project	4	The workshop was well prepared and organized, especially to include a practice session allowing participants to gain more understanding and experiences in maritime boundary issues. Working in group together with presentation and discussion is also an important part of the workshop, which was a good opportunity for participants to share ideas and learn from each other.
