WORLD HYDROGRAPHY DAY - JUNE 21, 2016

June 21, 2016 6:00 AM | [Alma Alling](#) (Administrator)

The Hydrographic Society of America

would like to congratulate

Hydrographers around the world on

World Hydrography Day / June 21

"Hydrography - the key to well-managed seas and waterways"

The [IHO](#) considers that hydrography is a fundamental enabler for all human activities that take place in, on or under the sea. It is therefore an underpinning factor in the proper monitoring, management and governance of the seas and waterways. For all these reasons, the IHO has chosen as its theme for World Hydrography Day 2016: Hydrography – the key to well-managed seas and waterways. The theme also highlights the fact that there are significant gaps in our knowledge.
