Dear Sir,

We are pleased to send you herewith the following publications:

*Continental Shelf Limits - The Scientific and Legal Interface*  
Edited by PJ Cook and CM Carleton.

*The Relevance of Non-Legal Technical and Scientific Concepts in the Interpretation and  
Application of the Law of the Sea* (N.R. Guy)  
This publication is forwarded in both bound and digital copy.

The United Nations Law of the Sea Convention (1982) is by nature multidisciplinary and therefore complex. These publications are not intended to reflect the views of either the Bureau or any Member State, but to provide some clarification of the nature of the various disciplines involved and what effect they may have on the interpretation of the Convention.

On behalf of the Directing Committee  
Yours sincerely,

Rear Admiral Neil GUY  
Director
