--

WORLD LIST OF MULTIBEAM SYSTEMS

Reference : IHB CL No. 10/2001.

Dear Hydrographer,

Dr. Norman Z. CHERKIS, Advisor to GEBCO, (formerly at the US Naval Research Laboratory), has compiled a “World List of Multibeam Systems”, for the attention of the GEBCO community.

The Bureau has just received this list and believes that it would be of interest to the hydrographic community at large, particularly to multibeam users or to those Hydrographic Services wishing to equip their survey vessels with such systems.

Therefore, please find attached, for your information, the “**World List of Multibeam Systems**”. It is also available on the IHO Web site under the section “**Publications**”, and then “**Download List**”.

The Bureau would be very pleased to receive any comments or additions from Member States.

On behalf of the Directing Committee
Yours sincerely,

Captain Hugo GORZIGLIA
Director

Encl. : List

WORLDWIDE SEAFLOOR SWATH-MAPPING SYSTEMS
(April 2003)

VESSEL NAME	OPERATOR	SYSTEM	INSTALL YR
AUSTRALIA:			
CASUARINI (Leeuwin Survey Launch)	ROYAL AUSTRALIAN NAVY	ATLAS FANSWEEP-20-200	1997
