

**ICC 2003 – 21st INTERNATIONAL CARTOGRAPHIC CONFERENCE
(Durban, South Africa, 10-16 August 2003)**

Nautical Chart Display by IHO Member States

References: IHB Circular Letter 26/2003 of 19 March 2003

Dear Hydrographer,

1. In response to CL 26/2003, the following IHO Member States have informed the IHB and the South African Navy Hydrographic Office (SANHO) of their intention to participate in the IHO Chart Exhibition, which will be held on the occasion of the 2003 Conference of the International Cartographic Association (ICC 2003), from 10 to 16 August 2003 in Durban, South Africa:

Chile, China, Cuba, Finland, France, Japan, Korea (Rep. of),
Netherlands, South Africa and United Kingdom.

In addition, the IHB will mount a display illustrating IHO activities. Australia has informed the IHB that they are unable to participate this time. Spain and the Russian Federation have indicated that they will contribute to the ICA Cartographic Exhibition through their national delegations. In this regard, we would like to point out that the IHO exhibition is being organized as part of, but separate from, the ICA cartographic exhibition, to give more visibility to IHO products and achievements. In effect, we have noted that IHO charts almost go unnoticed by the public when they are included in the national displays of the big ICA cartographic exhibition.

2. Items which will be displayed at the IHO Chart Exhibition are listed in Annex A. The IHB is grateful to all those HOs who will take part in the display. The ICA Conference is a major cartographic event and represents a unique opportunity to exhibit and demonstrate IHO Member States' chart production.

3. The IHB is of the opinion that the more IHO Member States who participate in this exhibition, the better the reputation of the IHO will be in the "outside" world. The IHB would therefore like to urge those HOs not listed above to consider participating in the IHO display at ICC 2003 and to send their items to the South African Naval Base of Durban¹, info IHB info@ihb.mc and SANHO (Mr. Malcom N. NELSON hydrosan@iafrica.com), as soon as possible.

4. A jury composed of cartographic experts will be formed to examine the displays and select the best one. A prize will be presented to the winning HO at the 3rd Extraordinary International Hydrographic Conference in 2005.

¹ 74799917-Pe Warrant Officer M. Gouden (Pro), Naval Station Durban, Private Bag X 1, Bluff 4036, Republic of South Africa

5. This Circular Letter is copied to : the ICA President (Dr Bengt RYSTEDT), the Chairman of the ICA Commission on Marine Cartography (Mr Ronald FURNESS, Australia) and the Local Organizing Committee for ICC 2003 (Ms Magda ROOS, South Africa).

6. The IHB would like to record once again its appreciation of the SANHO's assistance to the IHB in organizing the IHO Chart Exhibition at ICC 2003.

On behalf of the Directing Committee
Yours sincerely,

(original signed)

Rear Admiral Kenneth BARBOR
Director
