

IHB File No. S3/2705 & AB-3

CIRCULAR LETTER 26/2004
22 April 2004

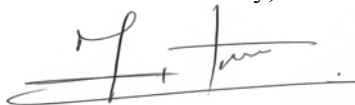

**SEA LEVEL TRAINING COURSE – SEA LEVEL CHANGES;
OBSERVATION, INTERPRETATION, APPLICATION**

Reference : CL 7/2004 dated 30 January 2004

Dear Hydrographer,

The IHB wishes to inform you that the Organisers have had to postpone the above course. This is because they have not managed to raise sufficient funds to cover the cost of travel and subsistence for staff and students to attend the course. Most of the 20 student applicants came from outside the Caribbean area and required funding support. This had increased the cost of travel beyond budget limits.

On behalf of the Directing Committee
Yours sincerely,

Vice Admiral Alexandros MARATOS
President
