

IHB File No. S1/0906

CIRCULAR LETTER 65/2006  
28 September 2006

UPDATING ENTRIES IN THE  
INTERNATIONAL HYDROGRAPHIC ORGANIZATION YEARBOOK (P-5)

Reference: - Programme 4 of IHO Work Programme (T4.1.2)

Dear Hydrographer,

As you know, the IHO Yearbook is permanently available on the IHO Web site and is automatically updated incorporating changes which are reported by the country concerned.

Apart from these updates, the Directing Committee annually requests Member States and all the non-Member States which are included in the Yearbook to verify their entry as it currently appears and amend it if necessary, so that the information published at the beginning of the year is as accurate as possible.

We kindly invite Member States to go to <http://www.iho.shom.fr/> >Publications>Download List > P-5 and Member States>IHO Member States, and check the information provided. We kindly ask you to carefully check that the E-mail addresses given for your country are still valid and ensure that the information on the web site is as complete and as up to date as possible

It would be very much appreciated if the above action could be taken as quickly as possible and your response be sent to reach the IHB **by Friday 1 December 2006 at the latest**. Apart from this annual update, we urge you to continue to report changes as and when they occur.

Thank you for your cooperation.

On behalf of the Directing Committee  
Yours sincerely,

Captain Hugo GORZIGLIA  
Director

---

Distribution: - IHO Member States  
- Non-IHO Member States (which appear in the IHO Yearbook)
