

IHB File S1/5006

CIRCULAR LETTER 73/2006
30 October 2006

WORK OF FIG COMMISSION 4 - HYDROGRAPHY
YEAR 2005-2006

Ref: IHB CL 103/2005

Dear Hydrographer,

For the second year running, I am pleased to send you herewith a CD-ROM, kindly provided to us by FIG Commission 4 - Hydrography, containing the work of the Commission over the last 12 to 18 months. It includes conference proceedings, papers and reports which Commission 4 and its officers have published to date, as well as two official FIG Commission 4 Publications: Joint Comm 4 & 7, WG4.3 Publication: Administering Marine Spaces: International Issues and Joint Comm 4 & 5, WG4.2 Publication: Developing a Vertical Reference Surface for Hydrography. The IHO Manual on Hydrography (IHO M-13) has again been included on the CD-ROM, to give it as wide a distribution as possible.

The Directing Committee is very grateful to Mr. Adam Greenland, who has now completed his term of office as Chairman of FIG Commission 4, for this excellent contribution. The new Commission 4 Chairman is Mr. Andrew Leyzack (Email : LeyzackA@DFO-MPO.GC.CA) with whom the IHB started a very fruitful and positive relationship at the FIG Congress in Munich, Germany, earlier this month.

For your information, the information contained in the CD is also available online on the FIG Commission 4 website at:

<http://www.fig.net/commission4/Index.htm>

On behalf of the Directing Committee
Yours sincerely,

Captain Hugo GORZIGLIA
Director

Encl: CD-ROM

Copy (for info.) to: Mr. Andrew LEYZACK , FIG Commission 4 Chairman.
