**CIRCULAR LETTER 69/2011
7 November 2011**

**FIG-IHO-ICA INTERNATIONAL BOARD ON STANDARDS OF COMPETENCE FOR HYDROGRAPHIC
SURVEYORS AND NAUTICAL CARTOGRAPHERS (IBSC)**

MEMBERSHIP

Reference: CL 52/2011 dated 23 August

Dear Hydrographer,

1 With the above reference the Bureau informed Member States that Prof. Ing. Luciano SURACE, a former full Professor of Geodesy at the Italian Navy Hydrographic Institute and IHO representative to the IBSC since 2003, had resigned. The Bureau then sought nominations to fill this vacant post; two nominations were received, one from Brazil and one from France.

2 The two candidates both have a very high level in the fields of hydrography and marine cartography which has made the Directing Committee's selection task extremely difficult. After carefully considering the CVs of the two candidates, the Directing Committee has selected Professor Nicolas SEUBE from France. The Directing Committee would like to thank the candidates for their applications and interest in serving and supporting the Organization through membership of IBSC.

On behalf of the Directing Committee
Yours sincerely,

Captain Hugo GORZIGLIA
Director
