**CURSO SOBRE «HIDROGRAFIA PORTUARIA Y COSTERA»
EN LA ACADEMIA MARITIMA INTERNACIONAL (AMI),
TRIESTE, ITALIA.
(16 de Junio - 19 de Noviembre del 2004)**

Estimado Director,

La Academia Marítima Internacional (AMI) de Trieste ha informado al BHI, en nombre de las Autoridades Italianas, que la quinta edición del curso sobre «Hidrografía Portuaria y Costera» ha sido prevista en el 2004.

El curso ha obtenido reconocimiento en el Nivel de Categoría B, opción 2, según lo establecido en la 8^a edición de las Normas de Competencia aprobadas por el Comité Consultivo Internacional de la FIG/OHI/ACI.

Se ha añadido un módulo sobre «Administración de Datos Hidrográficos» a este curso estándar, así pues se formará a los estudiantes en la administración moderna de datos hidrográficos y cartográficos.

El Curso empezará el 16 de Junio del 2004 y finalizará el 19 de Noviembre del 2004.

Se prevé el curso para doce estudiantes de todos los países. Se solicita a las autoridades gubernamentales responsables de la Hidrografía que envíen las solicitudes de sus candidatos a la:

Los nombramientos que no se hayan enviado a través de las Embajadas Italianas, no serán aceptados, y así pues no serán tomados en consideración en la selección. **Los nombramientos deben recibirse en la AMI antes del 15 de Abril de 2004 lo más tardar.**

El apoyo proporcionado por la AMI cubrirá los gastos de viaje, el transporte local en Trieste, el alojamiento y las comidas. El dinero para otros gastos personales **deberá ser proporcionado por la AUTORIDAD NACIONAL DE CADA ESTUDIANTE.** (Ver Anexo 2).

El curso es de gran importancia a causa de sus objetivos, su duración y su contenido técnico. Se espera que la comunidad hidrográfica y, en particular, los Servicios Hidrográficos Europeos, estén disponibles y deseen dar su apoyo a la AMI en términos de conferenciantes, basándose en las solicitudes que la AMI dirigirá directamente a cada país.

Se facilita información sobre el programa del curso y la logística en el Anexo 2. Se adjunta también una copia del Impreso de Nombramiento (Anexo 3).

En nombre del Comité Directivo
Atentamente,

(original firmada)

Capitán de Navío Hugo GORZIGLIA

- topographic and geodetic surveying in coastal areas
- tidal measurements and establish Tidal Datum
- follow the natural evolution of the coasts
- follow the coastal processes of siltation and erosion
- assist maritime works and marine geologists with the necessary bathymetric, oceanographic and topographic surveying
- assist oceanographers in the collection of oceanographic samples and measurements
- control dredging operations
- implement suitable maritime signals
- update nautical charts and publications pertaining to coastal and harbour areas and disseminate any amendment relevant to the safety of navigation
- organize a coastal hydrographic operative unit

Attendees (entry standards)

The course is open to personnel coming from Authorities responsible for the managing of coastal areas and for the functioning of the ports.

Applicants must hold at least a Higher School Certificate and have good knowledge of the English language, spoken and written.

Number of participants

In order to ensure the maximum efficacy, the course should not be attended by more than 12 trainees.

Language

The course will be conducted in the English language.

Course Certificate, diploma

The Certificate of Level B Hydrographic Surveyor will be awarded to the students who present documentation demonstrating completion of at least 24 months of supervised Hydrographic activity.

Upon successful completion of the course, a document will be issued by IMA certifying that the holder has successfully completed the course.

COURSE OUTLINE

The duration of the course will be 22 weeks. Lessons will be, generally, 7 hours per day, from Monday to Friday, for a total number of 772 hours.

The course has been subdivided into the following 8 modules.

Every module contains specific segments which are developed taking into consideration the requirement of the course and the time allocated.

The program includes complementary activities such as technical visits to Port Services and final tests.
