CANADA

Convention on the International Hydrographic Organization

1. Articles I, II, III and IV, p.6 and Article VI, p.7 and Article IX p.9: the bold characters seem to be an oversight – we do not see the need for putting them in bold.
2. Article V(b), p.6: formatting: correct the space to the left of the line.
3. Article XVI (c), p.10: "(iii)" and "a" should be replaced by "(i)" and "(ii)".
4. Pages 10/11: should be consistent in the use of numbers of alpha characters for paragraphs. **Note by IHB: the paragraphs referred to by Canada on pages 10/11 are historical provisions and must not be changed, in accordance with the decision of the SPWG Legal Experts Group.**

Protocol of Proposed Amendments to the Convention on the IHO

1. Article 1, para. 3 of Preamble, delete as indicated below. It is the coastal and interested States that support the protection of the marine environment.

"**CONSIDERING** that the vision of the International Hydrographic Organization is to be the authoritative worldwide hydrographic body which actively engages all coastal and interested States to advance maritime safety and efficiency and ~~which~~ supports the protection and sustainable use of the marine environment;"

Note by IHB: this is a substantive change to the text adopted by the 3rd EIHC and cannot be accepted.

FRANCE

The comments received from France concern the French text only of the two documents (see French version of CL 55/2005).

GERMANY

1. Requests that the order of the documentation and the wording be revised as follows:

The systematics of the documentation circulated is not in line with the decision adopted by the Conference. It should read as follows:

The documentation should start with the Resolution "Amendments to the Convention on the International Hydrographic Organization". This reflects the status of a decision taken by the Conference. The Resolution was adopted by the Conference. The term "Draft" should therefore be deleted.

For the sake of clarification "Adopted on 14 April 2005" should be inserted at the end of the text.

The Resolution refers in its 3rd paragraph to the "Protocol of Amendments to the IHO Convention". Accordingly the "Protocol of Amendments to the Convention on the International Hydrographic Organization" is an attachment to the Resolution. Page 1 of the document circulated, title page, therefore should become the 2nd page of the revised document, followed by the text of Article 1 pp. From the title the word "Proposed" should be deleted, because the amendments have been adopted by the Conference.

Next document in the revised version as an attachment to the Protocol (see 3rd para. of the Resolution) should be the "Consolidated Version of the Convention on the International Hydrographic Organization as amended by the Protocol of Amendments to the Convention on the International Hydrographic Organization". The title of this document should be amended as suggested in order to reflect the status.

Page 3 of the document circulated ("Protocol of Proposed Amendments to the Convention on the International Hydrographic Organization", followed by the text "Submitted by: The Strategic Planning Working Group which will be considered by the 3rd EIHC.") should be deleted, it is of no relevance in this context.

2. In addition Germany requests the following alteration:

2.1 Protocol of Amendments to the Convention on the International Hydrographic Organization

Article 1

In No. 2, the last words of the new 2nd paragraph read "National Hydrographic Offices". The wording adopted by the Conference was "national hydrographic services", see document CONF.EX3/Doc.3 Rev.3, page 7. Germany is of the opinion that this change of wording is not merely an editorial issue. The text as it stands now limits the aim of capacity building to certain institutions which was, in the German understanding, not the intention of the Conference. The text adopted by the Conference refers to national hydrographic services in the broadest sense and is therefore the appropriate term.

2.2 Consolidated Version of the Convention

Preamble, 2nd paragraph

The text as adopted by the Conference is reflected in document CONF.EX3/DOC.4 Rev.5. In addition reference is made to the explanation given on Article 1 of the Protocol.

Germany requests to redraft the wording of the text as approved by the Conference.

3. Germany supports the comments made by the UKHO on the documents circulated.

UNITED KINGDOM

1. Resolution

This document appears within the Protocol of Proposed Amendments to the Convention (see 2 below). It is still headed 'DRAFT RESOLUTION' but it is a Resolution adopted by the III EIHC.

The UK requests that the word 'DRAFT' is deleted.

2. Protocol of Proposed Amendments to the Convention

Title page

The first word, 'PROTOCOL' is not in bold but should be.

The UK requests that the word 'PROTOCOL' is made bold.

Article 1

At paragraph 2, the final words of the new second paragraph of the Preamble are 'National Hydrographic Offices', but the III EIHC adopted the words 'national hydrographic services'^[4]. All words have been given capital initials and the final word has been changed. These amendments are substantive and not merely editorial, since the capitalisation connotes a proper name.

It follows that 'National Hydrographic Offices' is to be construed as referring to a class of organization (namely to those organizations calling themselves National Hydrographic Offices) and not as referring to either any other type of body or any type of activity.

To facilitate capacity building of a National Hydrographic Office entails the existence of such an Office, and it is not at all clear that Conference intended to limit the Organization's activities in this way.

The wording adopted by Conference is, admittedly, ambiguous, since it could refer to 'services' in the sense that a 'service' can mean an organization or body of some sort or it could refer to 'services' provided by an organization or other body. Equally, it could mean both of these things. While ambiguous, this does not present any difficulty but does provide flexibility in deciding where and upon what effort should be expended.

The UK requests that the text is amended to that approved by Conference, so that it reads 'national hydrographic services'.

In the same paragraph the words 'co-ordinates' and 'world-wide' are hyphenated, whereas they are not in the consolidated text of the Convention.

The UK requests that the two texts are made consistent.^[5]

Article 2

The first sentence of the revised text is in bold but should not be.

The UK requests that the bold text is made not bold.

⁴ See Conference document 'CONF.EX3/DOC.3 Rev.3' at page 7. This document was the final document issued to delegates at the Conference. A document received by the UKHO from the IHB by e-mail of 20 May 2005 (DOC3_Protocol rev4.16AVRIL.DOC) uses the words National Hydrographic Offices. It is not clear to the UK what authority there was for this alteration. The UK's request is identical to that made below in relation to the consolidated Convention (f/n 10).

⁵ Identical to request below in relation to the consolidated Convention (f/n 6)

Article 4

The whole of the revised text is indented but should not be.

The UK requests that the text is aligned to the left margin.

Article 5

The lower-case Roman numerals denoting the sub-Articles of Article V(e) are not enclosed in parentheses whereas in the consolidated Convention they are.

The UK requests that the two texts are made consistent.[⁶]

Article 6

The lower-case Roman numerals denoting the sub-Articles of Article VI(g) are not enclosed in parentheses whereas in the consolidated Convention they are.

The UK requests that the two texts are made consistent.[⁷]

Article 8

The lower-case Roman numerals denoting the sub-Articles of Article VIII(d) are not enclosed in parentheses whereas in the consolidated Convention they are.

The UK requests that the two texts are made consistent.[⁸]

Article 9

The first sentence of the revised text is indented but should not be.

The UK requests that the indented text is aligned to the left margin

Article 14

The title of the Article is left-aligned and not bold when it should be centred and bold.

The UK requests that the title is centred and made bold.

3. Consolidated version of the ConventionPreamble

A comma is missing in the new second paragraph.

The UK requests the insertion of a comma after the word ‘Sea’ on the second line of the new second paragraph of the Preamble.

In the same paragraph the words ‘coordinates’ and ‘worldwide’ do not contain hyphens whereas they are hyphenated in the Protocol of Amendments to the Convention.

The UK requests that the two texts are made consistent.[⁹]

In the same paragraph the UK has the same comments as made above about the words ‘National Hydrographic Offices’ in the Protocol.

The UK requests that the text is amended to that approved by Conference, so that it reads ‘national hydrographic services’.[¹⁰]

⁶ Identical to request below in relation to the consolidated Convention (f/n 8)
⁷ Identical to request below in relation to the consolidated Convention (f/n 9)
⁸ Identical to request below in relation to the consolidated Convention (f/n 10)
⁹ Identical to request above in relation to the Protocol (f/n 5)

In the new third paragraph, on the third line, the text reads ‘engages all coastal and interested States to advance maritime safety and efficiency and support the protection and sustainable use of the marine environment’, whereas in the Protocol the equivalent text reads ‘engages all coastal and interested States to advance maritime safety and efficiency and which supports the protection and sustainable use of the marine environment’.

The meaning of the former is that States will be engaged to support the protection and sustainable use of the marine environment. The meaning of the latter is that the IHO will engage States to advance maritime safety and efficiency and will also itself be a body which supports the protection and sustainable use of the marine environment.

This is a drafting error carried over from Conference, where most concentration was placed on the Protocol, which will be the sole authentic text. The intention of Conference was that it should be the IHO that supports the protection and sustainable use of the marine environment.

The UK requests that the text of the Protocol is reproduced in the consolidated Convention, namely that ‘support’ is replaced by ‘which supports’.

Article I

The text is in bold but should not be.

The UK requests that the text is made not bold.

Article II

The text of the first sentence is in bold but should not be.

The UK requests that the text is made not bold.

Article III

Comment and request as for Article I.

Article IV

Comment and request as for Article II.

Additionally, the list of organs uses a comma as a separator, whereas the Protocol uses a semi-colon.

The UK requests that all commas in this Article are replaced by semi-colons.

Article V

The ‘(b)’ in Article V(b) is indented but should not be.

The UK requests that the ‘(b)’ in Article V(b) is aligned to the left margin.

The lower-case Roman numerals denoting the sub-Articles of Article V(e) are enclosed in parentheses whereas in the Protocol they are not.

The UK requests that the two texts are made consistent.^[11]

¹⁰ Identical to request above in relation to the Protocol (f/n 4)

¹¹ Identical to request above in relation to the Protocol (f/n 6)

Article VI

The texts of Article VI(d) through VI(g)(i) are in bold but should not be.

The UK requests that the texts are made not bold.

The lower-case Roman numerals denoting the sub-Articles of Article VI(g) are enclosed in parentheses whereas in the Protocol they are not.

The UK requests that the two texts are made consistent.^[12]

Article VIII

The lower-case Roman numerals denoting the sub-Articles of Article VIII(d) are enclosed in parentheses whereas in the Protocol they are not.

The UK requests that the two texts are made consistent.^[13]

Article IX

Comment and request as for Article II.

At Article IX(f), the final part reads ‘with *a* minimum number of affirmative votes being a least one-third of Member States.’ The equivalent text of the Protocol reads ‘with *the* minimum number of affirmative votes being at least one-third of Member States.’ (Emphasis added.) The latter appears in the text agreed by the SPWG in Tokyo (March ’04) and was not amended by Conference.

The UK requests that the text of the consolidated Convention is amended to read ‘with the minimum number of affirmative votes being at least one-third of Member States.’

Article XVI

The numbering of the sub-Articles to Article XVI(c) is wrong and is inconsistent with that in the equivalent provision in the Protocol.

The UK requests that the numbering be made consistent with that used in the Protocol.

Article XXI

Article XXI(b) begins ‘Proposals of amendment’, whereas the equivalent provision in the Protocol begins ‘Proposals of amendments’. (Emphasis added.) The text of the consolidated Convention is that adopted by the SPWG in Tokyo (March ’04), but it would be better if the text of this Article was consistent with that of Article XXI(a), which refers to ‘amendments’.

The UK requests that the text of the Protocol is used in the consolidated Convention.

Submissions made by Germany

The UK agrees with and supports the submissions made by Germany in relation to the documentation circulated with IHB CL 42/2005.

¹³ Identical to request above in relation to the Protocol (f/n 8)
