

Serge Lévesque

Serge Lévesque is Product Manager for CARIS LOTS (Law Of The Sea) at CARIS Headquarters in Fredericton, New Brunswick, Canada. He holds a B.Sc. in Geological Engineering from Laval University in Ste-Foy, Québec and an M.Sc. in Oceanography from Dalhousie University, Halifax, Nova Scotia, Canada.

As a consultant geophysicist, Mr. Lévesque worked for the Geological Survey of Canada on geophysical data compilations of the North Atlantic and Arctic oceans and on tectonic plate reconstructions at the Bedford Institute of Oceanography, Nova Scotia. Mr. Lévesque was Research Associate at the Atlantic Centre for Remote Sensing of the Oceans from 1993 to 1995. He worked in the private sector on remote sensing airborne surveys and in the offshore before joining CARIS in 1999 as a technical consultant in hydrographic data processing. He provides LOTS training and technical services since 2002.

Cameron McLeay

Cameron McLeay is a Senior Cartographic Consultant for CARIS USA in Alexandria, Virginia, USA. He started his hydrographic career at the New Zealand Hydrographic Office before joining CARIS in 2003. His fields of expertise at CARIS are in electronic chart production and the development of related international standards. He is the Product Manager of the CARIS desktop electronic charting applications, and also provides training and consulting for CARIS clients focused on chart production workflows and the development of specialty electronic products.

Ottokarl Büchsenschütz-Nothdurft

Ottokarl Büchsenschütz-Nothdurft is a graduate of the University of Hannover, Germany, with a degree in Geodesy as well as a certificate in Hydrography from the University of New Brunswick, Canada. He also participated in a research cruise of the German Polar Research Vessel Polarstern to Antarctica as part of the hydrographic operations team.

Since 2002 he is employed by CARIS BV in the Netherlands, starting as a GIS and Hydrographic Survey Engineer, and since 2006 as Support and Training Manager. He is still actively providing support and training to CARIS clients and representing CARIS at trade shows, seminars, etc. One of his main products in the CARIS Product Line he is working with is CARIS LOTS in which he has provided many training sessions as well as production assistance on both Limits & Boundaries cases as well as Article 76 cases.
