GENERAL SPECIFICATIONS

(Please provide detailed information in Annex of no more than three pages)

Background information	The Myanmar Navy Hydrographic Centre (MNHC) has made significant progress in chart production using Dkart tools. The impending purchase of a replacement CARIS system will give an enhanced capability but there is no funding for training. By taking the group approach to training, this course will deliver the benefit of training the whole team at once
Justification of the project	MNHC has no funds for cartographic training of this nature

Countries involved	Myanmar
Exposition of the problem	As above
General objective	The course programme aims to provide the delegates with an interactive one week specialist training course in nautical chart production utilizing the software that they own.
Specific objectives	Train the whole cartographic production team in the use of the new systems as well as defining workflow from receipt of data from the survey vessel into the chart production workflow
Outputs/Products	Delivery of a bespoke one week training course
Other deliverables	Nil
Achievements and awaited benefits	Better and more efficient outputs from the production system which will mean better and safer charts

Schedule of activities	This course is due to be delivered in early 2017 so planning will need to commence in late 2016
