

MSI Self Assessment NAVAREA XV - Chile

Submitted by Chile

SUMMARY

Executive Summary: Overview of activities undertaken within NAVAREA XV since WWNWS 6

Action to be taken: See Paragraph 12

Related documents: None

1. Background:

The NAVAREA XV limits are:

By the North: Parallel 18° 21' S.

By the South: The Antarctic Continent Coasts.

By the East: Chilean coast and the meridian 67° 16' W.

By the West: Meridian 120° W.

The Hydrographic and Oceanographic Service of the Chilean Navy (SHOA) is the NAVAREA XV Coordinator and transmits MSI to the broadcasting system that is disseminated by SafetyNET Service.

Transmissions of NAVAREA Warnings at 02:10 and 14:10 UTC (AOR-W satellite), Meteorological Information at 01:00, 03:45, 13:30, 14:40 and 18:45 UTC (AOR-W satellite) and SAR information as occasion demands (AOR-W satellite).

SafetyNET Service:

The transmissions are done through the Directorate General of Maritime Territory and Merchant Marine as National Maritime Authority, Valparaíso Playa Ancha Radio.

SafetyNET broadcast used:

NAVAREA XV: AOR-W

GMDSS Service Provider:

Astrium AN EADS Company

4.2 In force warnings bulletins

NAVAREA XV warnings are posted in the website www.shoa.mil.cl in both, English and Spanish language. Bulletins are updated twice a day and can be requested by e-mail to navarea15@shoa.cl

4.3 Notice to mariners

In the notice to mariners, annex II-A a compilation of the long lasting in-force notices is provided in the bulletins posted in the website www.shoa.mil.cl (Products/Boletines)

5. Quality Management Survey

NAVAREA	ISO 9001 - 2008	Promulgate "In-Force" Bulletins	Promulgate "No-Warning" Messages	Monitor Broadcast in almost real time	24/7 contact information provided	Promulgate two scheduled broadcasts	IMO Master Plan updated
NAVAREA XV	YES	YES	YES	YES	YES	YES	YES

6. Contingency Planning

The corresponding technical authority is in the administrative process to update the contingency plans.

A contingency plan exists for the NAVAREA XV operation center which considers the use of the operation center of the National Tsunami Warning System and an emergency communication container with HF, VHF, Internet and satellite communication facilities.

The maritime telecommunications centers do have contingency plans as well.

The contingency plan in case of earthquakes and/or tsunamis in the northern Chile or southern Peru, with NAVAREA XVI (Peru), is pending. Chile does not have any problem to put in place a redundant system in case the need arises. Chilean contingency plan can be implemented at any time due to the existence of several stations along its coast. To implement a system involving NAVAREA XV and NAVAREA XVI does not constitute a priority for Chile at this time.

7. Capacity Building:

Nil

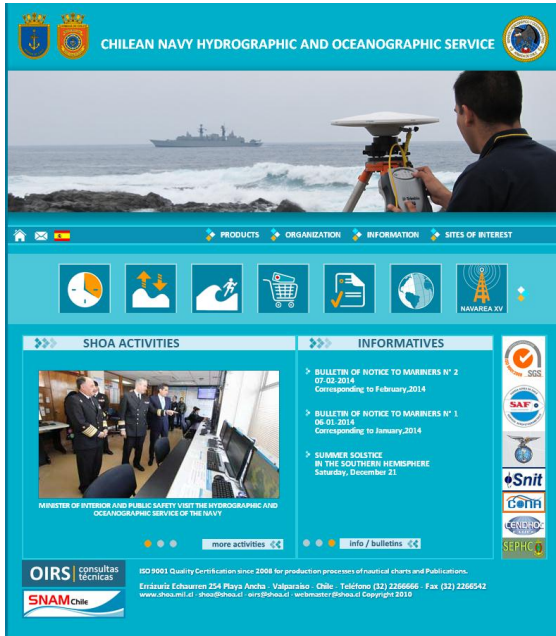

8. Other Activities:

8.1 NAVTEX System

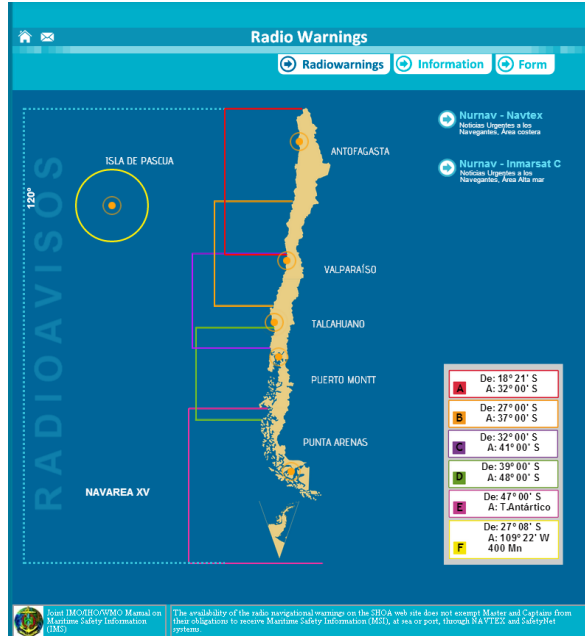

National shipping and the fishing fleet are in the process of modernization of their NAVTEX equipment in order to be able to receive simultaneously 518 and 490 Khz by 2016.

9. NAVAREA Website:

The web site www.shoa.mil.cl was updated. Actually it is compatible with all Androide and Apple mobile elements.
