

Hydrographic Services and Standards Committee

Proposal

to

HSSC-4, September 2012

Development of an S-100 Product Specification
for Ocean Forecasts

Summary

- ✦ The World Meteorological Organization wants to develop a graphical product specification for marine weather parameters, usable in ENCs.
- ✦ NOAA is leading the effort to develop such an S-100 based product specification.
- ✦ The WMO is requesting that TSMAD provide technical guidance on the use of S-100.

Action required of HSSC

- ✦ Note the work being done by the NOAA's National Weather Service on behalf of the WMO.
- ✦ Agree for TSMAD to provide expert advice on the creation of an S-100 based product specification for Ocean Forecasts.
