Proposed Procedure for Managing Requests for the
Allocation of S-100 Based Product Specification
Identifiers

TSMAD

Introduction

- ✦ HSSC5 endorsed a nomenclature for S-100 based Product Specification identifier.
- ✦ The solution adopted was based on a combination of an organization's abbreviated title and the S-XXX identifier, e.g. IHO S-101, IEHG S-401 etc.
- ✦ HSSC5 action 28 tasked TSMAD to develop a procedure for managing and registering such identifiers

Proposed Solution - Registration

- ✦ Two procedures for registering a product specification
 - Request for the allocation of a number of unique identifiers
 - Registration of the details of a product specification using one of the allocated identifiers
- ✦ Changes to S-99 to accommodate new process developed.

Registration – Request for identifier allocation

REQUEST FOR NEW PRODUCT SPECIFICATION IDENTIFIERS		
PROPOSER INFORMATION		
Name of Proposer:	<input type="text"/>	Mandatory
ORGANIZATION INFORMATION		
Name of Organization:	<input type="text"/>	Mandatory
Abbreviated Organization:	<input type="text"/>	To be used as identifier, e.g. IHO
Email Address:	<input type="text"/>	Mandatory
PRODUCT SPECIFICATION IDENTIFIERS (e.g. IHO S-124 or IALA S-201)		
Number of Product Specification Identifiers required:	<input type="text" value="10"/>	Select the required number of Product specification Identifiers from the drop down menu.
PRODUCT SPECIFICATION INFORMATION		
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Title:	<input type="text"/>	Mandatory
Remarks:	<input type="text"/>	Remarks, if required
Date requested:	<input type="text"/>	Assigned automatically

Registration – proposing new entry

A PRODUCT SPECIFICATION		
PROPOSER INFORMATION		
Name of Proposer :		
ORGANIZATION INFORMATION		
Name of Organization:		
Phone:	E-mail:	Fax:
Town:	County:	Postal Code:
Date :		
PRODUCT SPECIFICATION DETAILS (for further details about the following fields please refer to S-99 & S-100 part 12 Product Specifications)		
Alpha numeric :		
Title :		
Version :		
Version Date :		
S-100 Version :		
Status :		
Scope :		

Managing proposals

✦ Register Manager –

- processes requests for the allocation of new identifiers as described in S-99
- Updates the database to include the new identifiers and a minimum of metadata (organization, contact info etc.)
- Receives and validates new proposals for product specifications. If the details are in order enters them in the reserved database space.

Action requested of HSSC

HSSC is invited to endorse the proposal and task TSMAD to implement the changes to the S100 GI Registry and S-99.
