NEW IHO HYDROGRAPHIC DICTIONARY CHANGE PROPOSAL FORM

References:

- A. HSSC Action HSSC10/51
- B. HDWG Action HDWG2/5

Dear Colleagues,

1. Reference A required the Hydrographic Dictionary Working Group (HDWG) to prepare a template to be used by Working Groups when submitting new terms to the Hydrographic Dictionary. A draft template was prepared for discussion at the HDWG2 meeting (27-28 November 2018) and finalized following the meeting (Reference B).

2. The finalized *IHO Hydrographic Dictionary Change Proposal Form* (English version only), a copy of which is included at Annex A, is available for download from the Miscellaneous Information section on the HDWG page of the IHO web site:

https://www.iho.int/srv1/index.php?option=com_content&view=article&id=414&Itemid=372&lang=en

3. **It is requested that any proposals for change to the IHO Hydrographic Dictionary be submitted using this form.**

4. The HDWG is currently engaging with the IHO Secretariat in the establishment of a new database implementation of the Hydrographic Dictionary. It is intended that a more interactive version of the Change Proposal Form will be developed in due course as part of this implementation.

Yours Sincerely

A handwritten signature in blue ink, appearing to be 'JL' or similar initials, written over a white background.

JEAN LAPORTE,
Chair, HDWG

Distribution: HSSC and IRCC Chairs and vice-Chairs, and HSSC Working Group Chairs and vice-Chairs

Annex A: IHO Hydrographic Dictionary Change Proposal Form

IHO HYDROGRAPHIC DICTIONARY WORKING GROUP

HYDROGRAPHIC DICTIONARY CHANGE PROPOSAL FORM

Notes:

1. This form is intended to be used as an interim IHO Hydrographic Dictionary Change Proposal form pending implementation of a more interactive online proposal mechanism.
2. All fields marked (M) must be completed for Addition proposals.
3. If the Proposal type is Clarification, Supersession or Retirement: The Term, Term ID, Proposed change, Justification, Submitting organization and Date proposed fields are mandatory. For the remaining fields, only those fields proposed to be changed should be populated.
4. If the value selected for the Specialization field is Hydrography: The Hydrography subcategory field is mandatory to help identifying the best qualified IHO Working Group. For all other values of Specialization, Hydrography subcategory is not required.
5. For fields containing a list of values from which a choice is to be made, only one value must be chosen from the list. This value can be indicated by highlighting as bold text; or by deleting the values that are not relevant.
6. Fields that are not listed values are free text fields.
7. Please send completed forms to the IHO GI Registry Manager at jeff.wootton@iho.int.

Proposal type (M)

[Addition; Clarification; Supersession; Retirement]
