

6TH MEETING OF THE IHO-INTER REGIONAL COORDINATION COMMITTEE

IHO IRCC6

Paris, France, 19-20 May 2014

SEPRHC input to the IRCC SPIs and WPIs

Submitted by: SEPRHC*Executive Summary:* This paper presents the SEPRHC input to the IRCC SPIs and WPIs.

PERFORMANCE INDICATORS CHOSEN BY IRCC AND HSSC IN THE IHO STRATEGIC PLAN

Comments about the Strategic Performance Indicators related with the RHCs

No. PI	Strategic SPI	IRCC contribution	Comments
SPI 1	Number and percentage of Coastal States providing ENC coverage directly or through an agreement with a third party. (Previous year figures in brackets)	Source: collated by the WEND WG through RHCs	4 and 100% This RHC is composed by 4 MEs and the whole of them provide ENC in a direct way or through RENC.
SPI 3	Percentage of Coastal States which provide hydrographic services, directly or through an agreement with a third party, categorized by CB phases, as defined by the IHO Capacity Building Strategy.	Source: collated by CBSC through RHCs	100% The whole SEPRHC MSs provide their hydrographic services in a direct way.
SPI7	Increase in participation / membership in RHCs	Source: collated by IRCC through RHCs	The number of participants cannot be increased.
SPI8	Percentage of available / agreed ENC schemes.	Source: collated by the WEND WG through RHCs or International Charting Coordination Working Groups (ICCWG)	The 2011 IRCC Annual Report shows the commitment of this regulation.

Comments about the Working-level Performance Indicators related with the RHCs

No. PI	Designation	IRCC Contribution	Comments
WPI 15	Growth in ENC coverage worldwide, as reported in the IHO on-line catalogue, relative to the existing gap in adequate coverage (as defined by	Source collated by the WEND WG through RHCs	Accomplished. When WEND WG asks for updated information and when the MS of this Commission presents

	IMO/NAV) from the benchmark 01 Aug. 2008		their national reports. Nevertheless, there is not a procedure established to assess this growth.
WPI 16	Number of additional IHO MS starting to produce & maintain (with/without support) relevant ENC (contributing to 'adequate coverage') in the reporting period relative to those already producing at 01 Aug. 2008.	Source collated by the WEND WG through RHCs	The number of participants cannot be increased.
WPI 17	Percentage of Coastal States delivering hydrographic services - categorized by CB phases (MSI services, surveying capabilities, charting capabilities), directly or through an agreement with a third party, at the end of the reporting period.	Source: collated by the CBSC through RHCs	100%. The 4 MSs provide these services.
WPI 18	Percentage of IHO MS updating their S-55 entry data regarding hydrography survey, INT charts, ENC, and MSI in the reporting period	Source: collated by IRCC through RHCs	Because the C-55 is in progress, our information must be a pending matter.
WP 19	Status of hydrographic surveys in each region	Source collated by IRCC through RHCs	It is necessary to establish a standardized methodology. So, this WPI is a pending matter.
WPI 20	Percentage of agreed INT chart schemes, percentage of INT charts available.	Source collated by IRCC through RHCs or ICCWGs	The SEPHC has a INT chart Scheme long time ago and the percentage of INT charts is informed annually.
WP 21	Percentage of agreed ENC schemes, percentage of ENC available	Source collated by the WEND WG through RHCs or ICCWGs	The 2011 IRCC Annual Report shows the commitment of this regulation
WPI 22	Increase in effective MS participation in RHC activities	Source collated by IRCC through RHCs	It is necessary to establish a standardized methodology. So, this WPI is a pending matter
WPI 26	Percentage of Coastal States which have achieved phase 1, 2 or 3 and established a National Hydrographic Office	Source collated by CBSC through RHCs	100% The SEPHC is composed of 4 MSs and all of them comply the steps and have national coordination mechanisms in their area.
WPI 27	Number of States which have achieved phase 1, 2 or 3 and established a National Hydrographic Office in the reporting period.	Source collated by CBSC through RHCs	Not applicable
WPI 28	Percentage of Coastal States which provide ENC coverage directly or through an agreement with a third party	Source collated by the WEND WG through RHCs	100% This RHC is composed by 4 MEs and the whole of them provide ENC in a

			direct way or through RENC.
WPI 29	Percentage of Coastal States which have set up a national geospatial infrastructure	Source collated by IRCC through RHCs	The national spatial data infrastructure does not include hydrographic parameters.
WPI 40	Number of agreements signed in the reporting period, including bilaterals and RENC membership, etc.	Source collated by IRCC through RHCs
