

NAUTICAL INFORMATION PROVISION WORKING GROUP

NIPWG Letter 3/2019

8 March 2019

NIPWG Members

Dear colleagues,

Re: S-100 Strategy Implementation Plan

Dear NIPWG Team,

This letter discusses the HSSC Chair request to provide contributions to the Implementation Strategy. As you know, we provided substantial input to the collection of Items which should be discussed in the attached S-100IS draft. (NIPWG letter1/2019 refers). Both papers are attached for convenience.

The current request is to propose inputs and possible solutions to the various items.

The paper should collect all possible solutions and no limits (legal or workload) exist. We should put all ideas on the table. Even if some members provide opposite ideas for the same point, they all will be listed. The more ideas/proposed solutions we collect the better the result(s) could be.

The deadline is short and I would be happy to receive and collect your comments **by the 22 March** at the latest.

I would like to thank you for your contributions in advance.

Best regards

A handwritten signature in black ink, reading 'Jens Schröder-Fürstenberg'. The signature is written in a cursive style.

Jens Schröder-Fürstenberg,
Chair, NIPWG
