To: **S-100 Working Group Members**

Date 23 November 2015

S-100 Edition 2.1.0/3.0.0 Proposals

Dear Colleagues

This letter deals with several proposals to the next edition of S-100. Because of the limited amount of time we have at the upcoming meeting I would like to have the working group begin assessing proposals beforehand. Those proposals where the working group have no issues will be accepted and incorporated into the next edition of S-100. If there are comments on the proposals that cannot be resolved by correspondence they will be handled at the meeting in March.

Please respond to this letter by **January 20th 2016**, using the response form at Annex B. Accordingly, because some of the proposals deal with extensions to S-100 if there are specific comments to the revisions please use the S-100 comment form that is attached to this letter.

Best Regards,

Julia Powell
Chair, S-100 Working Group

S-100 Proposal Response form

(please return to S-100WG Chair by January 20th 2016)

	Question	Yes	No
1	Part 4a: Do you agree to add Tiff as a support file format?
