Change Proposal

Remove portrayal schemas and samples provided in appendix 9-A.

Change Proposal Justification

XSD schemas for portrayal are provided on GitHub, along with other S-100 XSD schemas. Providing XSD schemas within the document increases the likelihood of disagreements between UML, document XSD, and GitHub XSD. XSD Schemas for other Parts are not included in the document.

Examples of catalog items are available via the portrayal registry making the document samples redundant. In some cases the samples provided in the document do not validate against the schemas.

What parts of the S-100 Infrastructure will this proposal affect?

- S-100 Feature Concept Dictionary Interface or Database
- S-100 Portrayal Register
- S-100 Feature Catalogue Builder
- S-100 Portrayal Catalogue Builder
- S-100 UML Models
