

Comments from South Africa on Proposals

(by e-mail of 29 Oct 2010)

With reference to Action Item 8, South Africa's comments are as follows:

South Africa is in support of a new edition of S-23. However, as for the naming of the sea area between the Korean Peninsula and the Japanese Archipelago, South Africa regards this as a very sensitive matter and is not prepared to support or provide any comment unless the relevant parties come to some kind of agreement.
