

ACUF COMMENTS ON AUGUST 2005 GEBCO SCUFN GAZETTEER

Note 1: This list incorporates recent changes in the ACUF Gazetteer

Note 2: Macrons (`) are incorrectly shown as circumflexes(^) in the SCUFN Gazetteer Excel document. This occurs frequently in referring to the ACUF approved form of a name(primarily Japanese names).

Note 3: These comments fall into several categories

I. Repeat entries as found in the earlier ACUF Comments on the GEBCO SCUFN Gazetteer(%blue)(14)

II. Corrections/changes to 04GAZComments (#green) (5)

III. New comment (black) (32)

GEBCO NAME

ACUF COMMENT

A

Aconcagua Canyon
Argo Abyssal Plain

missing from 2005 Gazetteer
appears as Argo Seamount in 2005 Gazetteer

B

Bahama Ridge
Barcoo Bank

appears as Bahama Seabight in 2005 Gazetteer
move note: "shown as Barcoo Tablemount in ACUF Gazetteer" from Bardin Seamount entry to Barcoo Bank entry

%Bight Fracture Zone

Does SCUFN have any information on the origin of this name?

%Bunsei Seamount

longitude should be closer to 139°14'E; JA has 139 15 E

C

Canik Discordance
Cefalu Basin
Chikugo Hill
Chirikov Knoll / Chirikov Seamount

Canik Escarpment?
change note: shown as Cefalu Basin in ACUF Gazetteer
add note: shown as Chikugo Seamount in ACUF Gazetteer
Same feature? Look at SCUFN 7 Summary Report
SCUFN History of name(s):
Chirikof Seamount (1985 SCUFN Draft Gazetteer)
Changed to Chirikov Knoll (SCUFN 7)
Chirikof Knoll and Chirikof Seamount appear in 1988,95,97 & 99 Gaz.
Chirikov Knoll and Chirikov Seamount appear in 2002, 03 & 04 Gaz.
ACUF requests SCUFN to review the history to this situation to determine if there are indeed two features in questions.

Chukchi Borderland

was listed in SCUFN 2002 Gazetteer but not in '03 nor '04 Gazetteer

Coco-de-Mer Ridge

add note: shown as Coco-de-Mer Seamounts in ACUF Gazetteer

Colón Seamount

change note: shown as Columbus Seamount in ACUF Gazetteer

#Cortes Bank

reverted back to Cortes Bank in ACUF Gazetteer; remove note

Cruiser Seamount / Irving Seamount

ACUF believes that the names are applied to the incorrect features see ACUF Minutes (302)

Curumani Valley

change note: shown as Curumaní Valley in ACUF Gazetteer

Cyrene Seamount/

Herodotus Seamount

both are still listed in 2005 Gazetteer: two names for same feature

D

Demerara Plateau / Guiana Plateau

two names for same feature

E

#East Cortes Basin

reverted back to East Cortes Basin in ACUF Gazetteer: remove note

G

García Knoll
Gudauta Bank

remove note: SCUFN and ACUF have the same spelling
add note: shown as Gudaut'a Bank in ACUF Seamount

H

Hakuho Seamount
#Higashi-Shinsei Seamount

add note: shown as Hakuho Seamount in ACUF Gazetteer
change note: shown as Higashi Shinsei Seamount in ACUF Gazetteer
(could remove note, the only difference being the hyphen)

I

%Imarssuak Channel

coordinates do not match location on GEBCO 5.04

K

#Kita-Amami Escarpment

remove note: now shown as Kita Amami Escarpment in ACUF Gazetteer

%Komahasi Seamount

duplicate? Was on 2002 Comment list, but still not changed

L

La Confiance Ridge
Lowreenne Borderland

add note: shown as Savannah Seamounts in ACUF Gazetteer
add note: shown as Seamounts in ACUF Gazetteer

M

%MacDonald Bank
%Mapmakers Seamount
%Morris Jessup Spur

should be Macdonald; named for Gordon A Macdonald possibly Seamounts? (note refers to "group")
check spelling: should be Morris Jesup see:
<http://www.westportnow.com/arts/archives/008499.htm>

N

Nikindani Canyon
North Tasman 7 Seamount

add note: shown as Mikindani Canyon in ACUF Gazetteer
add note: shown as North Tasman Seamount Seven in ACUF Gazetteer

P

Paremo Hill
%Poincaré Seamount
%Polarstern Plateau
%Prokof' yev Seamount

add note: shown as Paremo Knoll in ACUF Gazetteer
check latitude coordinates 5°15'N or 15°15'N ?
add note: shown as Polarstern Knoll in ACUF Gazetteer
add note: shown as Prokofiev Seamount in ACUF Gazetteer

R

Repe Hill
%Rude Knoll
Rumble III Seamount

add note: shown as Repe Knoll in ACUF Gazetteer
check coordinates: ACUF has 52°50'N, 179°30'E
add note: shown as Rumble Three Seamount in ACUF Gazetteer

S

%Satsuma Seamount
Shortland Canyon

check coordinates: chart shows and ACUF has 27°07'N, 134°13'E
ACUF disagrees with the comment; the coordinates for Shortland Canyon are different from those of The Gully; ACUF coordinates agree with Canada's Gazetteer of Undersea Features.

%Smoot Seamount

*should be **Smook** Seamount (as published in 1999 SCUFN Gazetteer and as shown on INT 50)*

Soga Guyot
South Skiros Basin

note is not complete: shown as Saga Guyot in ACUF Gazetteer
change note: shown as South Skýros Basin in ACUF Gazetteer

T

#Tenpo Seamount
Thor Iverson Bank

add note: shown as Tempō Seamount in ACUF Gazetteer
should be Thor Iversen Bank; see: <http://home.online.no/~polar-ps/hopen.html>

Titmann Seamount

should be Tittmann Seamount; see:

Tosa Bae Bank

note not needed: also shown as Tosa Bank in ACUF Gazetteer

W

%Watari Bank

check longitude: ACUF has 138°55'E

Y

Yoto Seamount

add note: shown as YOTO Seamount in ACUF Gazetteer
