<b>Reason for Choice of Name</b> (if a person, state how associated with the feature to be named):	The word Bikol which replaced Ibalon was originally bikod (meaning "meandering"), a word which supposedly described the principal river of that area. Ibalong used to mean the "people of Ibal"; eventually, this was shortened to Ibalon. Bicol is the nearest region beside the feature. The feature was first named in the Philippine submission of an extended continental shelf in the Philippine Rise (Benham Rise) Region.
