

Paper for Consideration by SNPWG**[NP-1 Physical Environment – Test Data Set]**

Submitted by:	United Kingdom
Executive Summary:	Presentation of Physical Environment Test Data Set
Related Documents:	Minutes of the 16 th SNPWG meeting / Work plan
Related Projects:	NP1 test data sets for Navigational Services and for Radio Services

Introduction / Background

Development of NP-1 test data sets for Physical Environment was assigned to the United Kingdom.

Analysis/Discussion

A Physical Environment data set for the “Jussland” area has been developed for inclusion in the NP-1 publication. The data set has been developed from Indian Ocean data and tailored for use in NP-1.

Annex A is a template that provides the subject headings for Physical Environment.

Annex B is the proposed Physical Environment data set

Conclusions

Presentation of Physical Environment information requires large amounts of descriptive text.

Recommendations

Following scrutiny of the Physical Environment test data set, further develop and refine the data set in accordance with SNPWG discussions.

Action Required of SNPWG

The SNPWG is invited to:

- a. Note this paper
- b. Propose amendments and/or additions required to fully compile the Physical Environment data set.
- c. Propose deletions of categories or sub-categories that would be better included in other sections of the NP-1.
