Subject: S-100 Editing Committee Adjudication Results

Dear All,

Firstly, apologies for the delay in publishing the results of the S-100 editing committee in Seattle. I seem to have been everywhere in the world since October and have only just found the time to give the observations a final check. The comment sheet accompanies this letter and if you were not the primary contributor for your organization, please forward the document to the appropriate person.

The plan now is to bring all the parts of S-100 into one document. A technical writer (as discussed in Seattle) has now been contracted by IHB and will carry out this task as well as generally tidying up the format, fix broken links, check for consistency etc. The plan is to have a final version ready for TSMAD approval in Ottawa in May.

Regards,

Barrie Greenslade
Chairman, TSMAD
