TSMAD 16 – Cape Town

Dear All,

TSMAD 16 will soon be with us and I just wanted to update you on the provisional program of work for the meeting. This TSMAD is unusual in that, for most attendees, the whole week will be a joint meeting of both TSMAD and CSMWG members. The first two days will be TSMAD specific, the third day a combined TSMAD/CSMWG session and the final two days CSMWG specific. I use the word specific loosely, because in reality the development of S-101 requires close cooperation between both groups in order to achieve some of the more radical options proposed.

The provisional agenda accompanies this letter and also the summary report from the recent ECDIS Stakeholder Workshop in Monaco. This workshop proved very successful and the intention is to follow up on some of the major outcomes. Given the relatively short time we have in Cape Town we need to develop the high level concepts which can be developed further, both using the new Wiki/Forum website or more focused TSMAD meetings.

Regards,

Barrie Greenslade
Chairman, TSMAD
