TSMAD Letter: 3/2007

To S-44 and TSMAD Members

Date: 4 May 2007

Dear Colleagues,

At the TSMAD focus group meeting in April 2007, the draft IHO S-100 Quality Metadata underwent an initial review. It was decided that some of the metadata elements could be excluded, but TSMAD needed a wider perspective from the hydrographic community.

An excel spreadsheet questionnaire is attached with the Name of the Quality Measure and Definition. Please indicate whether it is appropriate to retain the Quality Measure by checking either yes or no. Also attached is the draft ISO 19138 standard for reference (Annex D).

Please send all responses to both Barrie.Greenslade@ukho.uk.gov, Julia.Powell@noaa.gov, and GaultonD@DFO-MPO.GC.CA by **May 25, 2007** for distribution at the June TSMAD meeting.

Best Regards

Barrie Greenslade
