Introduction

1. In order to reflect the new structure of the IHO as defined in the amendments to the Convention on the IHO and the other Basic Documents of the IHO that entered in to force on 8 November 2016, Decision 5 of the first Session of the IHO Assembly (A-1) tasked the Secretary-General to draft revised texts for the following IHO Resolutions:

- Resolution 5/1957 as amended - *IHO relations with other organizations*
- Resolution 1/1969 as amended - *Questions dealt with by the Bureau by correspondence*
- Resolution 9/1967 as amended - *Procedure for election of a Director by correspondence*
- Resolution 5/1972 as amended - *Tonnage figures*
- Resolution 1/2014 as amended - *Guiding principles for IHO Funds*
- Resolution 4/1957 as amended - *Preparations for International Hydrographic Conferences*
- Resolution 8/1967 as amended - *Checking of proposals submitted by Member States*
- Resolution 1/1965 as amended - *Adoption of the concluding procedure*
- Resolution 2/1965 as amended - *Possibility of considering a withdrawn proposal*

Discussion

2. The proposed revised texts presented by the Secretary-General have taken in to account the organizational and administrative changes that have recently come in to force, including the entry in to force of the Convention on the IHO and its supporting subordinate documents, nomenclature changes, and changes to the Staff Regulations. The opportunity has also been taken to make several non-substantive editorial adjustments.

Resolution 5/1957 as amended - *IHO relations with other organizations*

3. In addition to the consequential changes reflecting the new nomenclature of the Organization the proposed revised text for Resolution 5/1957 shown in Annex A takes into account the prerogatives of the Council in accordance with Article VI g (ix) of the revised Convention and the provisions related to

the observers included in the Rules of Procedure of the Assembly, the Council and the Finance Committee.

4. In addition, it is proposed to include in the Resolution the provisions related to the approval of an agreement or special arrangement on establishing cooperation between the IHO and any other organization.

Resolution 1/1969 as amended - *Questions dealt with by the Bureau by correspondence*

5. Resolution 1/1969 relates to the implementation of paragraph 6 of the former Article VI of the IHO Convention which provided for the following arrangements:

Between sessions of the Conference the Bureau may consult the Member Governments by correspondence on questions concerning the technical functioning of the Organization. The voting procedure shall conform to that provided for in paragraph 5 of this Article, the majority being calculated in this case on the basis of the total membership of the Organization.

6. A review of the consultations by correspondence initiated by the Secretariat during the period 2012-2016 shows that the majority dealt with the approval by voting on proposals submitted by subsidiary organs. According to Article VI (g) (vii), such proposals must now be reviewed by the Council first. The other items dealt with by correspondence were the following:

- Approval, by silence (tacit acceptance) procedure, of proposed arrangements on cooperation with other international organizations. It is proposed to include the relevant provisions in the proposed revised Resolution 5/1957 (see paragraph 3 above).
- Approval by silence (tacit acceptance) procedure of the annual theme for World Hydrography Day. It is considered that in future this item should be referred to the Council at its annual meeting.
- Approval by vote of the financial statements for the preceding year: the relevant provisions are stipulated by the Financial Regulations and subject to the further consideration of the Council in accordance with Decision No. 24 of A-1.
- Approval by vote of the annual Work Programme and Budget for the following year: the relevant provisions are stipulated in the IHO Resolution 12/2002 as amended at A-1.

7. On this basis, it appears that most of the provisions of Resolution 1/1969 are no longer relevant. Therefore, it is proposed to retain only the provision related to the period of time allowed for replies, noting that the outcome of a consultation that includes voting is based on the number of Member States who cast a vote within that period of time (see Article IX (f) of the IHO Convention as amended). A proposed revised text for Resolution 1/1969 is provided in Annex B.

Resolution 9/1967 as amended - *Procedure for election of a Director by correspondence*

8. The proposed revised text for Resolution 9/1967 that is shown in Annex C takes into account the provisions set out in Article 25 of the General Regulations. It also includes a number of additional details deemed useful as well as addressing the case of a tied result referred to in Article 23 (b) of the General Regulations to which Article 25 points.

Resolution 5/1972 as amended - *Tonnage figures*

9. Resolution 5/1972 on the establishment and maintenance of the Table of Tonnage contains two articles.

10. The first article contains four clauses a) to d).

- Clause a) and the first sentence of Clause c) duplicate the provisions of Article 6 (a) of the Financial Regulations.

- The second sentence of Clause c) relates to the publication of the Table of Tonnages in the IHO Yearbook (IHO Publication P-5); it duplicates a provision included in IHO Resolution 8/1929 - *Yearbook of the IHO*.
- The reference to Lloyd's Register in Clause b) is no longer valid. For some time now the Secretariat has used the Notice of Annual Assessment issued by the Secretariat of the International Maritime Organization as the reference.

11. The second article covering the processing of amendments is no longer applicable as the new edition of the Financial Regulations does not allow adjustment of the agreed tonnage figures during the period between two successive ordinary sessions of the Assembly (see Financial Regulations Article 6 (b)).

12. The proposed revised text for Resolution 5/1972 shown in Annex D reflects the preceding considerations.

Resolution 1/2014 as amended - *Guiding principles for IHO Funds*

13. In addition to the consequential changes reflecting the new nomenclature of the Organization, the proposed revised text shown in Annex E takes into account the prerogatives of the Council related to the approval of the annual budget and reflects the provisions of Edition 8.0.0 of the IHO Staff Regulations adopted in 2016 (see IHO CLs 26 and 45 of 2016).

14. Noting that the meetings of the Council are annual, it is considered that most related expenses must be covered by the ordinary budget and therefore it is proposed to limit the scope of the former Conference Fund to expenses related to the sessions of the Assembly.

15. New clauses 4.1.2.6 and 4.2.2.6 have been added to complement clauses 4.1.1.4 and 4.2.1.6 respectively.

Resolution 4/1957 as amended - *Preparations for International Hydrographic Conferences*

16. In addition to the consequential changes reflecting the new nomenclature of the Organization, the proposed revised text shown in Annex F extends the scope of the Resolution to the preparation of the meetings of the Council and takes into account the relevant Rules of Procedure.

Resolution 8/1967 as amended - *Checking of proposals submitted by Member States*

17. The revision of the Resolution on checking proposals submitted by Member States for consideration by the International Hydrographic (IH) Conference has been considered both in relation to the previous arrangements for Conferences and the Rules of Procedure now applicable to the Assembly and to the Council.

18. The existing Rules of Procedure do not contain any specific provision for inviting and circulating comments on proposals submitted to the Secretariat, as was the case for the Rules of Procedure for IH Conferences. The previous pre-Conference process included the distribution of a "*Red Book*" containing the proposals submitted by the Member States together with any subsequent comments and the positions of other Member States supplemented, as appropriate, by comments from the Directing Committee. This provided the Member States with a good understanding of the issues and opinions in advance of the Conference itself. The Secretary-General considers that it would be useful to continue this arrangement, as was done for the first session of the Assembly (see ACL 10 dated 2 September 2016) thereby assisting in the considerations and decision-making process of the Assembly and of the Council.

19. The table 1 below compares the timelines set out in the Rules of Procedure.

Table 1
Comparison of the timelines for the submission of proposals to the IH Conference, the Assembly and the Council

Deadline (T: opening day of the session or meeting)	IH Conference	Assembly	Council
T - 12 months	The Bureau shall invite Members States to submit the proposals that they wish to discuss at the Conference		
T - 8 months	The Bureau circulate the proposals submitted by the Member States and by the Bureau and invite comments		
T - 6 months	Convening of the session and submission of the provisional agenda by the Bureau	Convening of the session and submission of the provisional agenda by the Secretary-General	
T - 5 months	Submission of comments on the proposals by the Member States		
T - 4 months		Submission of proposals by Member States	Convening of the meeting and submission of the provisional agenda by the Secretary-General
T - 3 months			Submission of proposals by Member States
T - 2 months	Submission of all the proposals, together with Members' comments by the Bureau	Submission of the revised provisional agenda and supporting documents by the Secretary-General	Submission of the revised provisional agenda and supporting documents by the Secretary-General
T		In exceptional circumstances, the Secretary-General may include any question suitable for the agenda in a supplementary provisional agenda.	In exceptional circumstances, the Secretary-General may include any question suitable for the agenda in a supplementary provisional agenda.

20. In the case of the Assembly, there are two months between the deadline for submitting proposals to the Secretariat and the deadline for circulating the Assembly documents. It is proposed that Member States be given one month to comment on the proposals received.

21. In the case of the Council, the time between the deadline for submitting proposals to the Secretariat and the deadline for circulating the Council documents is one month. It is proposed that Member States be given two weeks to comment on the proposals received. If this is not considered realistic, then the Council may wish to consider an exemption to Rule 7 of the Rules of Procedure in order to allow the Red Book to be distributed later, for example, one month before the meeting of the Council.

22. The proposed revised text shown in Annex G reflects the consideration above and also takes into account the new nomenclature now used in the Organization.

Resolution 1/1965 as amended - *Adoption of the concluding procedure*

Resolution 2/1965 as amended - *Possibility of considering a withdrawn proposal*

23. The existing texts of Resolutions 1/1965 and 2/1965 are provided in Annex H for ease of reference. Both resolutions were proposed in 1965 by the Directing Committee when developing a “*Guide for IH Conferences*”. This document was superseded by the Rules of Procedure for International Hydrographic Conferences (IHC) that were adopted by the XIth IHC in 1977. There is no clear evidence in the archives held by the Secretariat as to why these two resolutions were maintained in the Repertory of IHO Resolutions when its first edition was prepared in 1976.

24. The Secretariat is not aware of any instance in past IH Conferences when either Resolution was invoked.

25. Considering that neither Resolution adds any significant provision to the existing Rules of Procedure of the IHO Assembly, Council and Finance Committee, it is proposed to revoke both resolutions.

Action required of the Council

26. The Council is invited to:

- a. **endorse** the proposed revised Resolutions as set out in Annexes A to G;
- b. **endorse** the revocation of Resolutions 1/1965 and 2/1965;
- c. **instruct** the Secretary-General to seek the adoption by Member States of the proposals through voting by correspondence; and
- d. **take any other actions** that may be appropriate.

Proposed changes shown in red / ~~red~~.

QUESTIONS DEALT WITH BY THE <u>SECRETARIAT</u>BUREAU BY CORRESPONDENCE	1/1969 as amended	<u>43/1970</u> <u>xx/20xx</u>	T2.1
--	--------------------------	--	-------------

~~1— It is resolved that, as provided in paragraph 6 of Article VI of the Convention and Articles 24 and 25 of the General Regulations, the Bureau may deal by correspondence with technical or administrative questions. Such questions may be either proposals submitted to a Conference and referred back to the Bureau when the Conference was unable to reach a conclusion, or proposals initiated between Conferences by Member States or by the Bureau itself.~~

~~2— The following procedure shall be observed:~~

- ~~a) In the preliminary exploratory stage the Bureau shall take the necessary action to include with the proposal a detailed explanation of the reason for its submission and to ensure that every Member State may have the opportunity to express an opinion on the draft resolution and become familiar with the opinions of the IHB and other Member States.~~
- ~~b) When the Bureau considers that the exploratory stage is over and that a general tendency can be defined from the views expressed, a synthesis of these views shall be drawn up and distributed with a perfected version of a draft resolution, to be put to the vote by correspondence. If this draft differs appreciably from that of the original proposal, and if the latter was originally put forward by a Member State, the Bureau shall consult with that Member State before putting the text to the vote.~~
- ~~e) When this voting stage has been reached Member States may propose only minor corrections. The Bureau shall evaluate whether these should be accepted or rejected, and, if accepted, whether the new text as amended requires to be submitted for a further vote by correspondence.~~
- ~~d) In cases where a preliminary exchange of views is not considered to be appropriate, the Bureau may call for a vote at the time a proposal is first circulated.~~
- ~~e) In principle, a resolution will be adopted when it has received the required majority of votes in favour. If it does not obtain that majority, the question shall be closed and Member States informed of the fact. The question may be raised anew before an I.H. Conference on the initiative of the Bureau or any Member State.~~

~~f) Whenever a circular letter is sent in compliance with the above procedure, When the Assembly or the Council decides to refer a proposal to the Member States for adoption through correspondence, the Secretary-General~~Bureau~~ shall fix a deadline for replies. The period of time allowed for replies should ~~not~~ normally ~~be exceeded~~ two~~three~~ months unless the Assembly or the Council decides otherwise.~~

Proposed revised Resolution 1/2014 as amended

Guiding principles for IHO Funds

Proposed changes shown in red / ~~red~~.

GUIDING PRINCIPLES FOR IHO FUNDS	1/2014 as amended	55/2016 <u>xx/20xx</u>	-
----------------------------------	-------------------	--------------------------------------	---

1. Purpose

- 1.1. The purpose of this Resolution is to describe the practices and procedures that govern the operation of the various funds operated by the IHO Secretariat~~IHB~~ on behalf of the IHO.

2. Introduction

- 2.1. Over the years, the IHO has established various funds in order to best meet its objectives and the achievement of the work programme.
- 2.2. Article 18 of the Financial Regulations of the IHO makes provision for an emergency reserve fund. According to Article 18, the emergency reserve fund is exclusively designed to ... ~~to enable the Organization to meet extraordinary expenditure. It can only be used in exceptional circumstances.~~
- 2.3. In addition to the emergency reserve fund, other funds have been created for specific, recurring, but non-annual events whose costs cannot easily be managed or met by the annual operational budget process. These funds are intended to cover such things as funding for the sessions of the Assembly~~IH-Conferences~~, the relocation of Internationally Recruited Members of Staff taking up their appointment and on separation~~Directors at the commencement of each new Directing Committee and the relocation of Assistant Directors that occur from time to time~~, major renovations in the IHO headquarters~~IHB~~, printing and maintenance of the IHO Presentation Library (part of S-52) and the legacy, internally funded pension scheme for former IHO~~IHB~~ employees.
- 2.4. Additionally, other funds have been created that provide flexibility in how they are financed, and provide long term confidence in delivering against their objectives. Funding for the IHO Capacity Building Programme and the IHO-IOC GEBCO project are examples.
- 2.5. Maintaining these various funds provides the ability to support such things as expensive one-off projects, expenditures exceeding the possibilities of the annual budget, or simply to guarantee the sustainability of an activity or the organizational structure itself.
- 2.6. In all cases, the funds have been approved by Member States, are audited and then monitored on a regular basis by the Finance Officers' Meeting and presented to Member States through the Council as part of the IHO budget and governance process.

3. Use of Budget Surpluses

- 3.1. Recent studies have shown that in these days of global economic crisis, not-for-profit organizations that rely on a fixed subscription income, such as the IHO, should not avoid a budget surplus at the end of each year, but should actually aim towards that objective, in order to enable reserve funds, which could be essential for their longer term survival.
- 3.2. Maintaining a reasonable surplus is now considered good and safe management practice, especially for organizations like the IHO that are dependent on fixed contributions that could be withheld if some Member States face increasing economic and financial difficulties.
- 3.3. The existence of various dedicated funds enables any budget surpluses to be transferred to those funds, thereby providing an additional cushion against short-term reductions in income that

may be encountered. Seeking to run a budget surplus has been the practice in the IHO for at least the last decade.

4. IHO Funds

4.1. GEBCO Fund

4.1.1. Description

4.1.1.1. The GEBCO Fund opened in 2002, using the proceeds from the celebration of the centenary of the GEBCO Project. Its purpose is to support the expenses of outside experts, within the framework of their participation in the GEBCO project.

4.1.1.3. Since 2009, the GEBCO Fund has received an additional allocation from the IHO annual budget, as agreed in the budget by Member States.

4.1.1.4. Other organizations may provide financial support to the GEBCO Project from time to time. Donated funds will be included in the GEBCO Fund but may be maintained and managed separately, according to any terms and conditions mutually agreed between the IHO and the donor organization at the time of the donation.

4.1.2. Expenditure that can be covered by the GEBCO Fund:

Their execution is monitored according to the IHO Financial Regulations (see articles 9 and 12).

4.2.3. Expenditure Approval Requirements

- 4.2.3.1. The allocation of funds follows a procedure established by the CBSC. Proposals are screened by the relevant Regional Hydrographic Commissions and given a priority. At its annual meeting the CBSC considers bids and develops a rolling CB Work Programme, taking into account the state of the CB Fund. The CBSC decides on priorities and amounts to be allocated to each approved project. This is based on the parameters and procedures established by the CBSC.

In addition to the emergency reserve fund, other funds have been created for specific, recurring, but non-annual events whose costs cannot easily be managed or met by the annual operational budget process. These funds are intended to cover such things as funding for the sessions of the Assembly, the relocation of Internationally Recruited Members of Staff taking up their appointment and on separation, major renovations in the IHO headquarters, printing and maintenance of the IHO Presentation Library (part of S-52) and the legacy, internally funded pension scheme for former IHO employees.
- 2.4. Additionally, other funds have been created that provide flexibility in how they are financed, and provide long term confidence in delivering against their objectives. Funding for the IHO Capacity Building Programme and the IHO-IOC GEBCO project are examples.
- 2.5. Maintaining these various funds provides the ability to support such things as expensive one-off projects, expenditures exceeding the possibilities of the annual budget, or simply to guarantee the sustainability of an activity or the organizational structure itself.
- 2.6. In all cases, the funds have been approved by Member States, are audited and then monitored on a regular basis by the Finance Officers' Meeting and presented to Member States through the Council as part of the IHO budget and governance process.

3. Use of Budget Surpluses

- 3.1. Recent studies have shown that in these days of global economic crisis, not-for-profit organizations that rely on a fixed subscription income, such as the IHO, should not avoid a budget surplus at the end of each year, but should actually aim towards that objective, in order to enable reserve funds, which could be essential for their longer term survival.
- 3.2. Maintaining a reasonable surplus is now considered good and safe management practice, especially for organizations like the IHO that are dependent on fixed contributions that could be withheld if some Member States face increasing economic and financial difficulties.
- 3.3. The existence of various dedicated funds enables any budget surpluses to be transferred to those funds, thereby providing an additional cushion against short-term reductions in income that may be encountered. Seeking to run a budget surplus has been the practice in the IHO for at least the last decade.
