

BSHC 12th Conference

Customised Hydrographic Course on the Baltic Sea

12 June 2007

Juha Korhonen

Finnish Maritime
Administration

12 June 2007

BSHC/12, Klaipeda 12-14 June 2007

1

Background:

Finland has contacted with Professor Delf Egge at the Hamburg HafenCity University (HCU), Geomatics Department, concerning FIG/IHO Cat A hydrographic education

- in English language.
- Cat A and Cat B levels
- Interest has been asked among the HOs

Finland has asked opinions of the Baltic HOs:

- So far only limited interest to start a course in the autumn 2007

12 June 2007

BSHC/12, Klaipeda 12-14 June 2007

2

Proposal:

Each Baltic Sea Hydrographic Office is invited to look upon the necessity of this kind of education, possibly a tailored course starting on 2008.

Also possible financial grants should be studied.

HCU Geomatics department is proposed to develop distance learning techniques in relation to the course starting on 2008.
