10. Conclusions

Costa Rica needs to improve the Hydrography Unit in the Ministry of Public Works and Transportation, also strength relations with organizations such as IHO or UKHO in order to manage in a better way all hydrographic information.

In the last 4 years, The Ministry of Public Works and Transportation has invested around USD 100 000 in hydrography equipment.

Costa Rica needs training related to Cadet B.

One of the most important achievement was to update 1978 Chart of Moín-Limón Port in the Caribbean Sea, because of the construction of a new container terminal in Moín-Limón.
