The SEPRHC cooperation with stakeholders (organizations, industry, etc.)

Active cooperation in capacity building is in place between SEPRHC, SWAtHC and MACHC. The projects submitted to the CBSC always consider the participation three Hydrographic Commissions. Spanish speakers

Member states are involved with other intergovernmental organizations related to maritime and navigation safety like IOC, IALA and IMO.

Under the agreements between navies there are a lot of cooperation in capacity building among hydrographic services.

In particular, Colombia continues receiving assessorial in Antarctic expedition of Ecuador, Peru and Chile.

The Antarctic Treat is another organization that the four members state works together
