

MACHC CL 01-2012
dated 9 February 2012

INTERNATIONAL HYDROGRAPHIC ORGANIZATION
MESO AMERICAN & CARIBBEAN SEA HYDROGRAPHIC COMMISSION

To: All MACHC Member State National Hydrographers

Subject: Proposed Special Meeting at IHC

Dear MACHC National Hydrographer,

I would like to propose that an Extraordinary meeting of the MACHC should be held in the margins of the forthcoming International Hydrographic Conference (IHC) in Monaco.

The meeting would be an ideal opportunity to discuss progress of the Meso-American and Caribbean Marine Economic Infrastructure Programme Working Group (MACMEIP-WP) since the 12th MACHC in St. Kitts. If any MACHC Member would like to propose further items for the agenda please forward them to International.Relationsukho@ukho.gov.uk for inclusion.

The meeting will be in the Rainier auditorium and further information will be conveyed to delegates when arrangements are complete.

Rear Admiral Nicholas Lambert
UK National Hydrographer and MACHC Chair
