

MACHC Letter 01/2017

Date, 06 January 2017

To: The Chair of IRCC
Dr. Parry Oei

Subject: MACHC Performance Indicators 2016

Dear IRCC-chair,

In response to the items 9/2016 and 10/2016 of the IRCC Work Plan, the Meso-American and Caribbean Hydrographic Commission created an overview of its contributions to the IHO 2016 Work Programme as well as a list with the status of each relevant performance indicator for our region. These documents are given as Annex A and Annex B to this letter, respectively. The documents represent the status of affairs on the final day of MACHC17, which ended on 17 December 2016. Please note that the list of Annex B contains recommendations to merge some working level performance indicators with their corresponding strategic level performance indicator.

I am available for your questions or remarks relating to the two documents. I would welcome any feedback before 17 March 2017, when Rear Admiral of the Mexican Navy Fernando Alfonso Rodriguez Angli takes over the position of MACHC chair.

Yours sincerely,

Captain RNLN Marc C. J. van der Donck
Director Netherlands Hydrographic Office
Hydrographer of the Royal Netherlands Navy
Chairman, Meso American & Caribbean Sea Hydrographic Commission
