20th Conference of MBSHC

4 – 6 July 2017 (Herceg Novi, Montenegro)

IHO Work Programme 1 – "Corporate Affairs"

Information Management (IHO Website, IHO GIS,…)

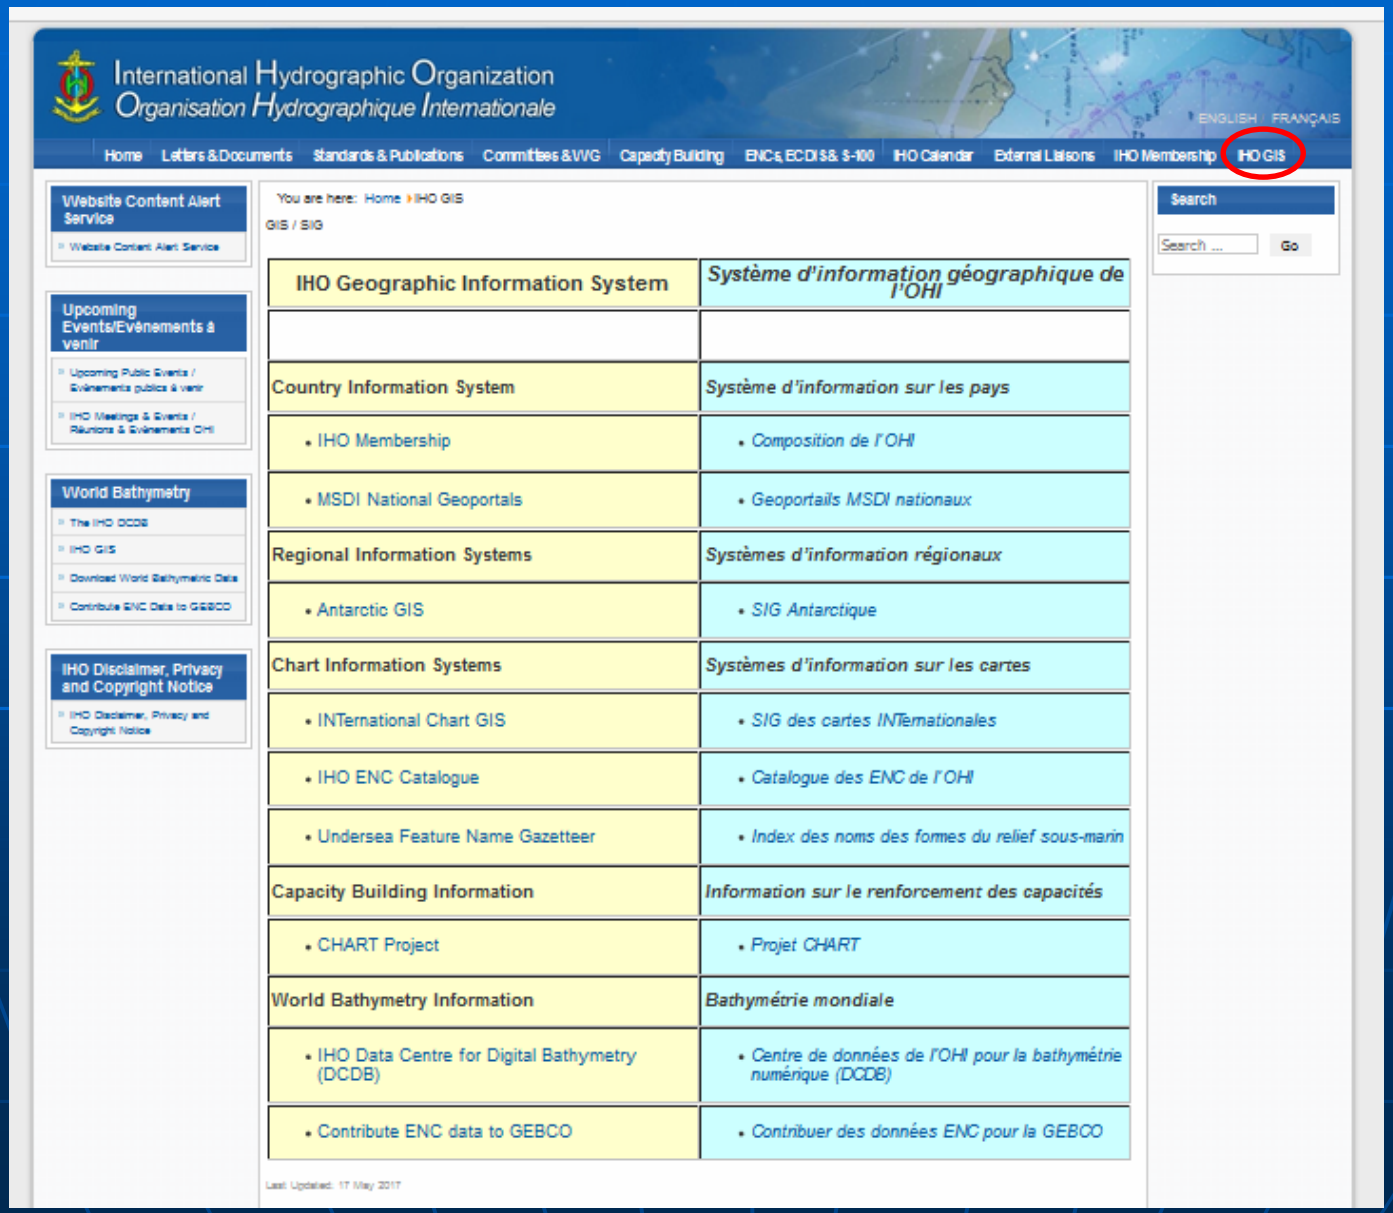
(Agenda items MBSHC20-04.2)

IHO Secretariat

Contents

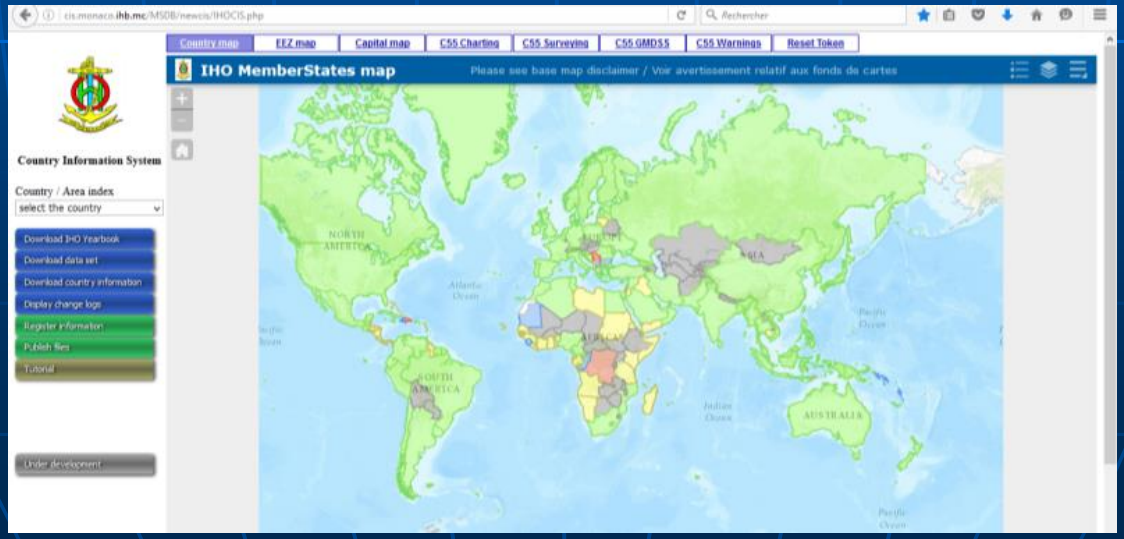
- Single Interface to IHO GIS Applications
- IHO Country Information Database
- IHO Regional Information Database
- IHO ENC Coverage Catalogue
- INToGIS
- On-Line Registration Service for IHO Meetings
- Action required of MBSHC

Single Interface to IHO GIS Applications



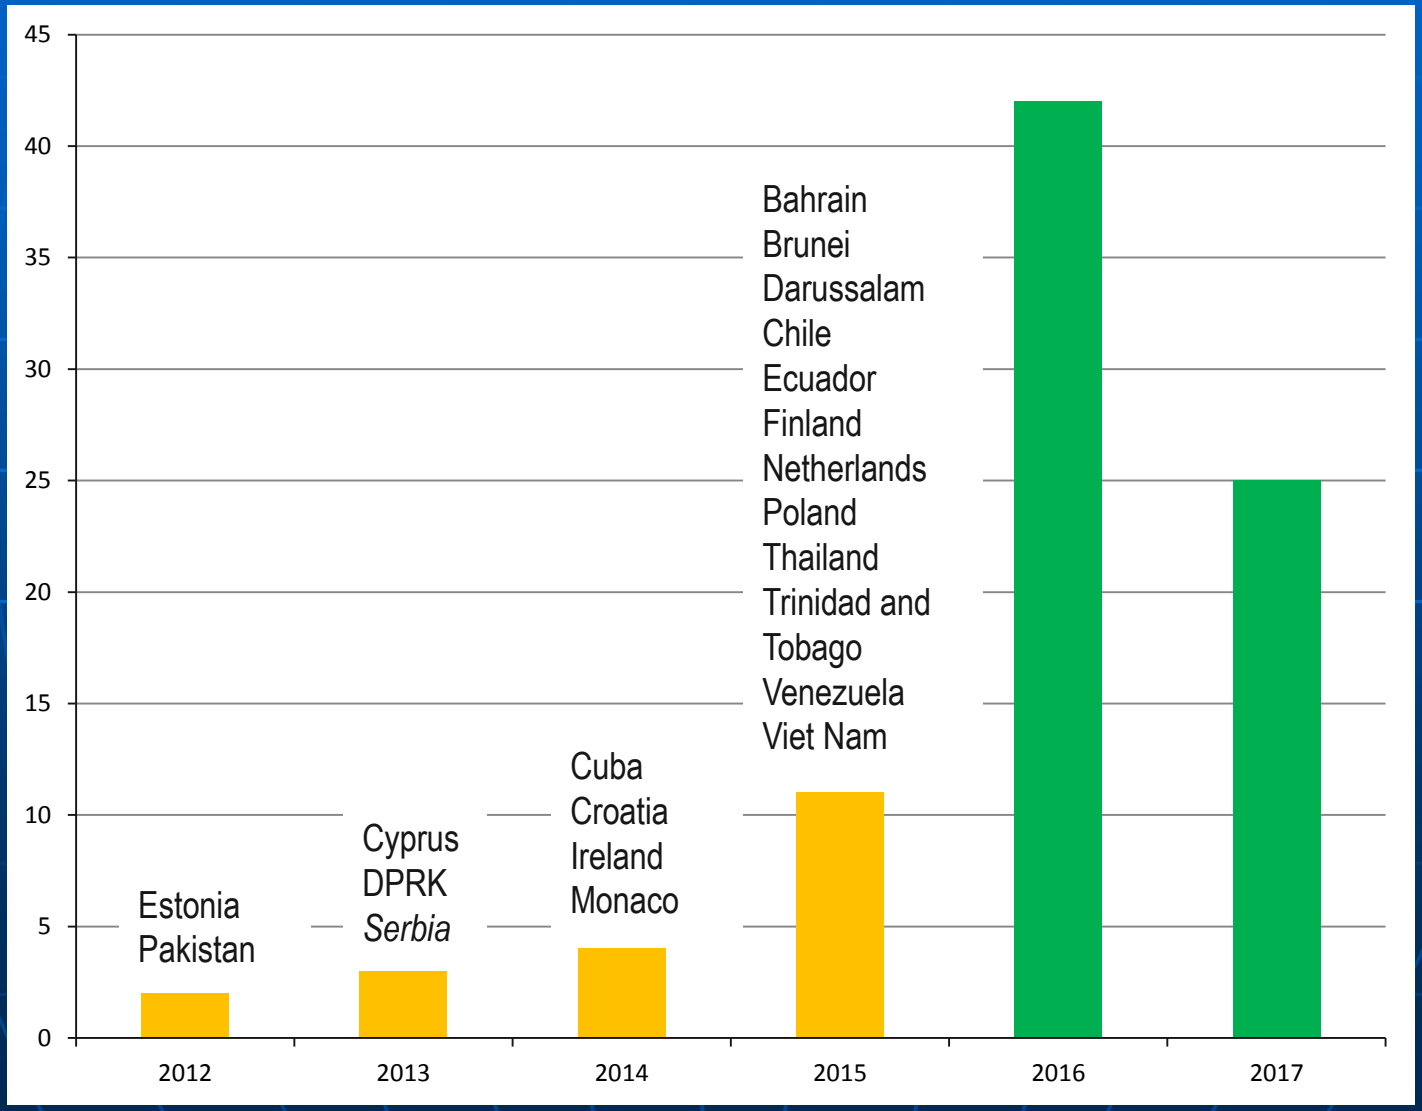
IHO Country Information Database

- Upgrade of the database to include additional information including
  - the date of signature of the SOLAS Convention, when applicable
  - the existence of a Nominated Hydrographic Authority
  - the existence of an MSI Capability, and
  - the identification of the Primary Charting Authority



IHO Country Information Database

- Currency of the information available in P-5



IHO Country Information Database

- Statistics on the status of hydrographic services

Capability	Number of IHO coastal States*	Number of other UN coastal States	Total
	86	64	150
Signatory to SOLAS	86 (100%)	58 (91%)	144 (96%)
MSI Capability	76 (88%)	14 (22%)	90 (60%)
Nominated Hydrographic Authority	86 (100%)	51 (80%)	137 (91%)
Own Charting Authority	65 (76%)	3 (5%)	68 (45%)

** Serbia not included*

IHO Country Information Database

- Transfer to the CIS of the data supporting C-55
- New on-line pdf version of C-55 generated automatically from the database

IHO/OHI Publication C-55

Status of Hydrographic Surveying and Charting Worldwide

Etat des levés hydrographiques et de la cartographie marine à travers le monde

Introduction

The purpose of IHO C-55 Publication (available here) is to provide base data for governments and supporting international organizations as they consider the best means by which to implement responsibilities set out in Chapter V, Regulation 9, of the Safety of Life at Sea (SOLAS) Convention. It also informs IHO input to the United Nations Global Maritime Assessment.

Hydrography and Maritime Activities

The significance of hydrographic effort to safe use of the sea, national economic prosperity, and protection of the marine environment is elaborated in IHO Publication M-2. That publication identifies three core capabilities, the status of which is assessed in the three sections of the C-55 data-base:

A. Hydrographic Surveying.
B. Nautical Charting.
C. Provision of Maritime Safety Information (MSI).

Introduction

L'objectif de la publication C-55 de l'OHI (disponible ici) est de fournir une base de données aux gouvernements et aux organisations internationales qui se penchent sur le meilleur moyen de mettre en œuvre les responsabilités décrites dans le chapitre V, règle 9 de la Convention pour la sauvegarde de la vie humaine en mer (SOLAS). Elle sert également à l'OHI pour alimenter l'évaluation maritime globale des Nations Unies.

Hydrographie et activités maritimes

L'importance des activités hydrographiques pour l'utilisation sûre des mers, la prospérité économique nationale et la protection du milieu marin sont expliquées de manière détaillée dans la publication M-2 de l'OHI. Cette publication identifie trois capacités centrales dont l'État est évalué dans les trois sections de la base de données de la C-55:

A. Levés hydrographiques.
B. Cartographie marine.

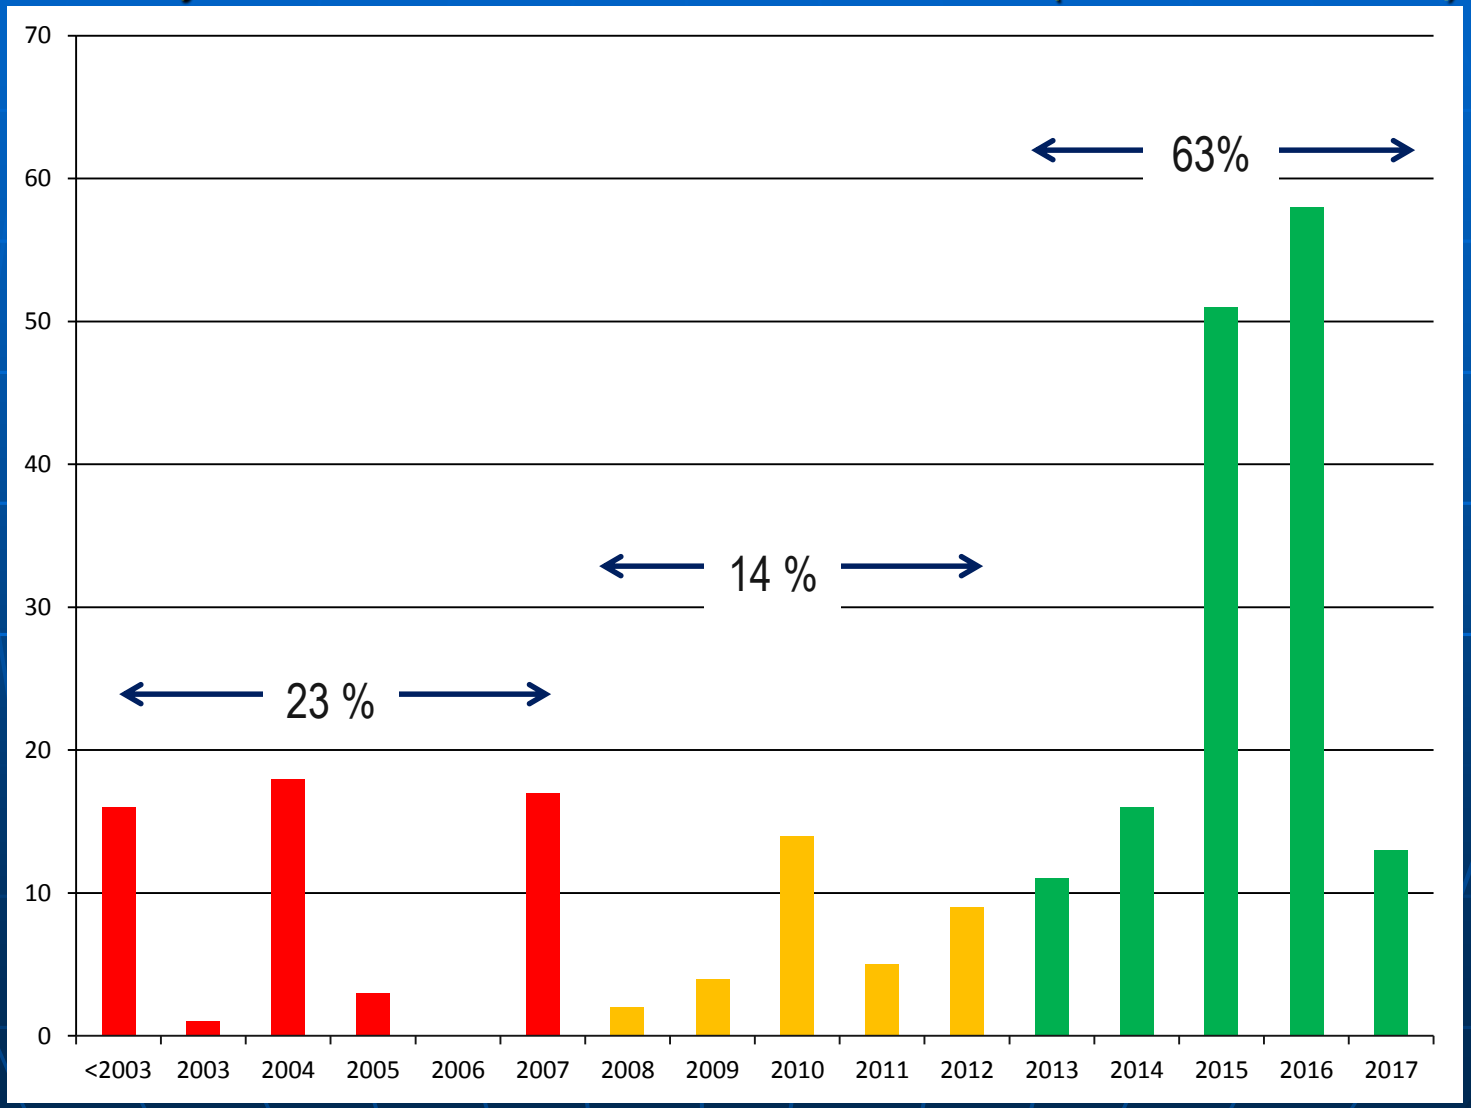
IHO Country Information Database

- Currency of the information available in C-55 *(number of areas)*



IHO Regional Information Database

- On-going development of GIS outputs derived from C-55 data (for internal use of the Secretariat)
- Use of composite CATZOC reports to brief RHC meetings: subject to the approval of RENC members (see action WENDWG7/09)

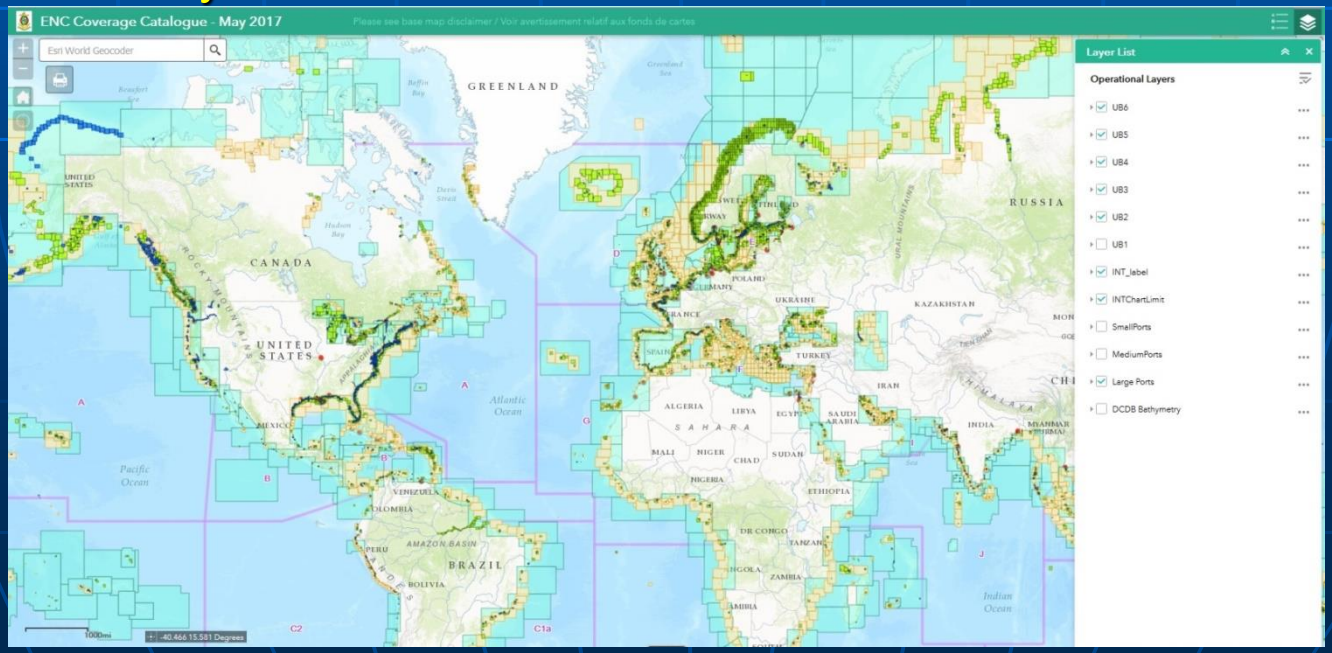
IHO ENC Coverage Catalogue

- Additional layers
  - Limits of INT Chart Regions
  - Ports (from NGA Pub 150)
  - DCDB Bathymetry
- Work in progress to reflect the availability of ENCs in accordance with the “Diagram of ENC Data Flow Producers-RENCs-Distributors” maintained by the WENDWG

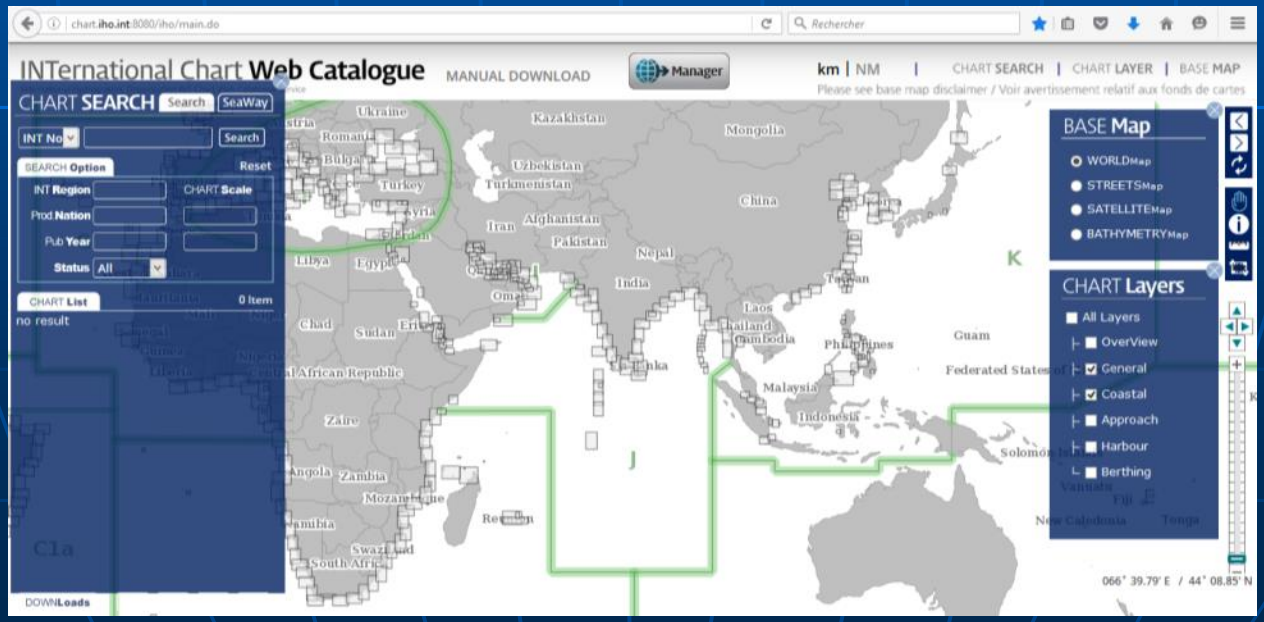


INToGIS

- On-line web-based interactive version of IHO Publication S-11 Part B - *Catalogue of INT Charts* made available in January 2016 (see IHO CL 89/2015)
- The INToGIS application well used in most Charting Regions (excepted Region K – East Asia, and Region C2 – SE Pacific)

Home> Standards & Publications> S-11> Part B (link)

Phase II to be launched from September 2017



On-Line Registration Service for IHO Meetings

- Service used successfully for HSSC-8 and A-1
- Upgrade requirements based on the lessons learned submitted to KHOA for further consideration
- On-line registration is now the preferred mode of registration for the meetings organized by the IHO Secretariat…
- …however, it is up to the Organizer to decide if preference should be given either to the on-line registration or traditional form

Action required of MBSHC

- MBSHC is invited to:
  - Note the report
  - Request RHCs to review entries related to their region in IHO C-55 and P-5 (Yearbook) at least annually;
  - Request RHCs to review entries related to ENC and INT charts (back-ups, national catalogues, etc.) on a regular basis;
  - Consider whether some data available in the Country Information System can be released on case-by-case basis for supporting MBSHC Conferences (CATZOC, etc.)
  - Provide guidance on further development of web-based applications that may be required to support its work;
  - Take any other actions as appropriate
