Main results from IRCC (1/2)

Increasing exchanges between RHC chairs on emerging topics (risk assessment, capacity building, MSDI, crowd-sourcing)

Draft guidance document on crowd-sourced bathymetry, that could be submitted to IHO Member States at the end of 2018

Monitoring implementation of WEND principles and guidelines, especially by fostering reduction of overlapping data in regional ENC coverage, and relying on RENC to RENC co-operation

Main results from IRCC (2/2)

Better understanding of the implications of maritime information overlays on ENC

Increased oversight of the GEBCO project and the governance and administration of the GGC with regard to the effective financing of the GEBCO work plan

Monitoring performance indicators, supported by biannual reporting of the RHC

New draft version of S-8A and S-8B (competencies for nautical cartographers)
