

The United Kingdom Hydrographic Office  
Rear Admiral Tom Karsten  
ADMIRALTY WAY  
TAUNTON, SOMERSET  
TAI 2DN, UNITED KINGDOM

April 15, 2015

At the 59<sup>th</sup> Meeting of the Nordic Hydrographic Commission, the Chair of the Commission reported that he had not received any formal response to the letter dated 2 October 2014 requesting the UKHO to discontinue Admiralty Information Overlay (AIO) in national ENC's produced by NHC Member States (Denmark, Finland, Iceland, Norway, Sweden).

The Meeting reconsidered the subject, noted that Finland, Iceland, Norway, Sweden include T&P messages in their ENC's, and re-confirmed its request.

Accordingly, the Commission demands that AIOs related to national ENC's produced by Finland, Iceland, Norway, Sweden be discontinued without further delay.

On behalf of the Chair of the NHC

Hydrographer of Iceland
