

**12th South West Pacific Hydrographic
Commission Meeting
12th – 14th November 2013
Port Vila, Vanuatu**

SWPHC Logo

Explanatory Note

Many Regional Hydrographic Commissions have a logo depicting their region which is used on RHC correspondence by the chair, working group chairs and member states.

The purpose of a logo is to provide a recognisable emblem for the commission that looks professional and represents the region. It will create an image for the region that will be recognisable and professional.

The Chair is proposing an agenda item for members to discuss if they would like to consider a logo for the SWPHC region.

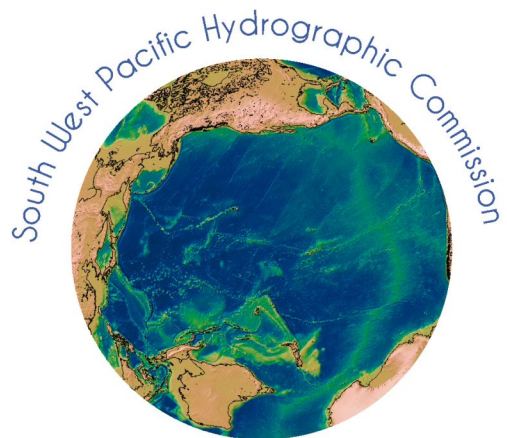

A selection of logos from other RHC's are provided for participants to view and some draft designs are also provided to assist discussions. If any member would like to propose a design for discussion at the meeting they are strongly encouraged to provide a draft design by 1st November for onward dissemination.
