United Kingdom  
Hydrographic Office

# Development of Coverage

**The UKHO is always looking at improving coverage for the maritime community.**

- Using AIS data to analyse traffic patterns –
  - eg. new charting priorities, in conjunction with Vietnam
- Using SDB to augment existing bathymetry and traditional surveys – eg. GB 2066 Southern Antigua
- Digital products to support mandation

United Kingdom  
Hydrographic Office

# United Kingdom Overseas Territories

## Bermuda

- Advancing a broader UKOT context, across UK Government
- Pursuing further opportunities for SDB – more to come
- Re-establishing our Bursary Scheme for Cartographic and Hydrographic training

United Kingdom  
Hydrographic Office
